Beaver & Gephart

Bellefonte Republican

Established in 1869.} "Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN. Terms: $1.50 per Year

VOL. XXV BELLEFONTE, PA., THURSDAY MORNING. AUGUST 30, 1894. NO 35

REPUBLICAN STATE TICKET.

FOR GOVERNOR,
DANIEL H. HASTINGS, of Centre.

FOR LIEUTENANT-GOVERNOR,
WALTER LYON, of Allegheny.

FOR AUDITOR-GENERAL,
AMOS H. MYLIN, of Lancaster.

FOR SECRETARY OF INTERNAL AFFAIRS,
JAMES W. LATTA, of Philadelphia.

FOR CONGRESSMAN-AT-LARGE,
GEORGE F. HUFF, of Westmoreland.
GALUSHA A. GROW, of Susquehanna.

Republican County Ticket.

FOR ASSOCIATE JUDGE,
BENJAMIN RICH, of Fleming.

FOR ASSEMBLY,
P. E. WOLMESDORF, of Philipsburg,
HARRY R. CURTIN, of Roland,

FOR JURY COMMISSIONER,
JOHN D. DECKER, of Potter twp.

FOR PRESIDENT JUDGE,
JOHN G. LOVE, of Bellefonte subject to the decision of the district judicial conference.

The Dynamite Gun.

While it is pretty certain that dynamite guns will be an important means of defense to the seaboard cities in any future wars in which this country may be threatened with invasion, it is difficult to see how their introduction into the service can be a greater revolution in gunnery than was the invention of the rifled gun as a successor to the old smooth bore. Each of these improvements was great in its way, and as the rifled cannon revolutionized artillery practice, so the pneumatic gun supersedes or increase the value of rifled instruments. But as the Lancaster, Whitworth and Armstrong guns became better understood and their terrible power and vast range more thoroughly appreciated, the countries which first put them forward soon lost the advantage of their exclusive use and other nations placed themselves on an equal level by taking advantage of and improving upon their structure and utilizing them for their own means of attack or defense.

And so it will with the dynamite gun. Even at the present day England has kept pace with and even forged ahead of us in the adoption of that terrific system of shell charging upon which we are now priding ourselves, and it is not going too far to say that within a year or two each of the great powers will have adopted the system, not only for shore defense, but for purpose of attack from their fleets. Of course there are difficulties in the way, technical obstacles to overcome and safety in handling and firing to arrange, but these are only minor details which engineering science and mechanical skill will certainly overcome.

Nor is it at all certain that should the United States be able to retain pneumatic dynamite guns to her own particular use and defense, the mounting of a few of them on the defense points of the harbor of New York would make that city impregnable to attack. The short range of the dynamite gun would be found to be its fatal weakness, except as a subsidary arm. While there are European fleets armed with guns of eight or ten mile range and throwing immense shells to explode on impact, it is difficult to see how the magazines of short range batteries could be protected from the effects of the awful concussion of immense shells dropped into their immediate neighborhood. And nothing would be easier for well-manned attacking fleets than to sail in and seek shelter in any of the bays opening into New York harbor, and from points far out of the range of the dyamite guns, pour in a fire which would destroy them by concussion, or else shell the city directly without trouble from the new defense.

The dynamite gun is a great invention, but it will require many pneumatic batteries scattered around to make Manhattan Island into another Gilbraltar.

What Caused the Hard Times.

Judge Hubbard, of Iowa, says it is the existence of private corporations.

George Gould says it is the hostility to corporations.

The farmer says it is the low price of wheat.

The silver man says it is the action of Wall street.

The consumer says it is the tariff.

The debtor says it is the creditor.

The creditor says it is the debtor.

The Democrats say it is the Republicans.

The Repnblicans say it is the Democrats.

The Populists say it is both.

The Prohibitionists say it is whisky.

The preachers say it is the devil.

Now, what do you say?

The conviction of John T. Callahan, a member of the New Orleans Common Council, for accepting a bribe to vote for an ordinance before that body will give the people of that city some hope that the, of corrupt officials which has long ruled it may be broken up. Councilman Callahan made an impudent demand upon a company for $500, threatening that unless the money was paid an ordinance before the Council vitally affecting the company's interests would not be allowed to pass. The money was paid and the ordinance went through, but Mr. Callahan's ill-gotten gains will land him in prison. It has long been believed that New Orleans is governed by the most corrupt of the many corrupt municipal rings in this country, but while rumors were plenty and fully justified by appearance the difficulty was to secure evidence that would convict. The long immunity of the ring at last emboldened Callahan to overstep the bounds of discretion, and a prompt arrest brought him to trial and conviction. And now that the ice is broken there are prospects that other rogues may follow in his wake and the city government of New Orleans be purified.

Here's a Weather Prophecy.

Franklin, Pa., comes to the front with a weather (as well as a war) prophet who recently delivered himself of his predictions. His name is Adam Griswold and he says:

"We are going to have a war and a very hard winter. Every sign, and there are many of them, indicates that fact. When the sun sets in the evening you will notice the long horizontal streaks of red. ot the usual red sunshine, but a streaked one. That represents blood. A few of the seventeen year old locusts have been seen and everyone has a 'W' on its wings, the 'W' standing for war. The wheat blade, as noticed in our county, bore the letter 'B,' for blood. Again, oats and wheat are a light crop, with lots of chaff, the same as in 1861. and they grow in spots as they did that year. The butternuts are falling off in great numbers, signifying death to many, and last but not least, we have the panicky times which can only be corrected by a war or some new development, such as gold in '49 or the oil after the civil war.

"Now, in regard to a hard winter: The coons and 'possums have a heavy growth of fur coming on. The chipmunk and the squirrel are the busiest little animals in the world. The insects have left the north side of the trees in the woods, as you will notice, and the feathers on the geese are heavier than ever before. My young lambs are growing wool that seems marvelous, and sheep that have been sheared are rapidly regaining their fleece. These signs were visible in '57 and '58. Another sign that is visible and is a sign of a hard winter is the large hazel nut crop. This also has another significance, as it means that lots of boy babies will be born to take the place of those who will be killed in the coming war. I tell you, everything points to a hard winter and war, and there are signs indicating this fact which never fail. Although not superstitious, I have every reason to believe the signs."

That Cattle Plague.

The investigations of the Tyrone Board of Health into the cattle plague on the surrounding mountains has resulted in the discovery of many dead animals and scores of sick ones, and the matter is so serious that the State Board of Health has been notified.

It is thought by some that the disease may be similar to that which sometimes afflict western cattle. Whatever it may be called, it is said that the only sure way to get rid of it is to cremate the carcasses, that even grass growing from the graves of animals dying from the disease will infect cattle that eat it. It was first thought to be poison administered by some culprit that was the cause of the death of these cattle, but that idea is now about dissipated; though of course the real cause is not yet known, but will in all probability prove to be pleuro-pneumonia or some other disease to which cattle are subject.

A New Vocation for Women.

One of the latest openings for women is as drummers for the chewing gum trade. An Indiana manufacturer has had a bright young lady on the road for several months selling his product. and during the dullest months of last winter, when stagnation ruled the trade, her orders for chewing gum were large. One ward in a big city will keep a woman busy for many weeks and when she has finished, the territory is ready to be worked over again. The field is a large one, as all sorts of establishments sell chewing gum. The women take samples along with them and receive orders just like ordinary drummers. A Western manufacturer has just divided Chicago into districts, each of which has a young woman agent to sell chewing gum

—It is an old tradition that the katydids begin to sing six weeks before the first frost. If this be true, the first frost will be on hand early in September, for katydids have been singing for some time.

WASHINGTON LETTER.

Washington, August 27, 1894.
From Our Regular Correspondent.)

Mr. Cleveland's widely advertised backbone has apparently turned to jelly. The tariff bill which he so bitterly abused is to be the law of the land at midnight to-day, because he lacked the nerve to veto it. If instead of affecting the interest of thousands, nay millions, of people, it had merely affected the interest of some poor devil who had sought relief from Congress he would have sprung a veto on it quick enough. Bah! Let the country hear no more of this man's courage. He has the courage of the bully and braggart only. He is always ready to jump on some little thing but when it comes to something big he ignores it.

No wonder that Mr. Cleveland has not acted upon the report of the civil service commission, recommending the dismissal of the blatant negro demagogue, C. H. J. Taylor, whom he made recorder of deeds for the District of Columbia, for having violated the law against soliciting campaign contributions from Government employes. That report gives him the alternative of snubbing the civil service commission and winking at a violation of the civil service law, for which he always professed to have such great respect—he has always carried an overstock of professions, or of dismissing his special protege from an office to which he should never have been appointed and probably never would have been had not the Senate refused to confirm his nomination to a diplomatic position. Taylor says he has no fear of dismissal. He has made Mr. Cleveland believe that as the head of the negro democratic league, an organization composed of negroes who have been given office and those who expect to be given office by this administration, he controls a large number of votes; hence his certainty of being protected. As a matter of fact those who should know do not believe that there are one thousand negro democrats in the United States.

Representative Payne, of New York, one of the prominent republican members of the House committee on Ways and Means, closes a brief and interesting resume of this session of Congress with this pen picture that is bound to be recognized by all who have intelligently watched the doings of the democrats in Congress: "The leaders have been afraid to trust their followers. Never have rulers become more arrogant than the members of the committee on Rules. Never have followers been more craven than the other democrats in the House. So far as the leaders have followed the Reed rules, the House has been able to do business. But where the leaders have followed their own device, and have sought to bind the minority, hand and foot, stifling all debate, they have absolutely prevented the House from passing just and wise laws, even if the House had the wisdom to do so. One word—incompetent—fitly characterize this Congress. This feeling is widespread. It is well-voiced in the letter of President Cleveland to Mr. Wilson. There is no excuse for mistaking or misrepresenting the feeling and temper of the rank and file of the democracy. They are downcast under the assertion that their party failed in ability to manage the government. The President in the senate quoted correctly sized up the situation.

Senator Hill contributes this statement to democratic harmony in New York: "Of the Presidential nominations (for New York) since March 4, 1893, 90 per cent have been taken from that portion of the party known as "anti-snappers" against the protest of prominent democrats and against the recommendation of the regular organization of the party in the several localities; while 95 per cent of the fourth class postmasters appointed have been taken from the same faction, the regular organizations being substantially unrecognized. There are many counties in the state where the men who officially and successfully conducted the campaign in 1892 have been wholly ignored, neither themselves nor their organizations securing a single first class postmaster appointment in their respective counties. These facts and figures speak for themselves and do not require any comment."

Chairman Wilson of the House Ways and Means Committee, proposes starting for Europe early next week, and the tongue of rumor says that he expects to bring back a big campaign fund to be spent in trying to get himself re-elected to the House. Whether this rumor is true or false I will not undertake to say, but as Mr. Wilson was instrumental in getting tariff legislation through Congress that is going to put lots of money into European pockets at the expense of American working men, it is not unreasonable to suppose that some of the benefited European manufacturers may be grateful enough to put up some money to be used in trying to keep Mr. Wilson in Congress. Both he and Mr. Cleveland have promised to get more favors for European manufacturers if Congress continues to be democrgtic.

Congress will adjourn to-morrow, and its democratic members will have an opportunity to learn just what their constituents think of the blundering incapacity which as marked everything they have undertaken.

Select Excursion to Famous Jersey Resorts via Pennsylvania Railroad.

On September 6 the Pennsylvania Railroad will run a select ten-day excursion to Atlantic City, Cape May, Sea Isle City, Anglesea, Wildwood, or Holly Beach.

Excursion tickets will be sold at the rates quoted below, good going only on the train mentioned to Philadelphia, thence to either of the seashore resorts named by regular train on September 6 or 7:—

	Train leaves.	Rate
Muncy	8 40 A. M.	$4 50
Montgomery	8.48 "	4 50
Dewart	8.57 "	4 35
Watsontown	9.02 "	4 20
Milton	9.10 "	4 00
Montandon	9.18 "	4 00
Bellefonte	6.20 "	5.75
Lemont	6.45 "	5.50
Oak Hall	6.47 "	5.50
Linden Hall	6.52 "	5.25
Centre Hall	7.06 "	5.25
Rising Springs	7.21 "	4.75
Coburn	8.38 "	4.75
Glenn Iron	8.17 "	4.25
Millmont	8.25 "	4.25
Mifflinburg	8.38 "	4.00
Vicksburg	8.47 "	4.00
Lewisburg	8.47 "	4.00
Philadelphia	Ar...3.00 P.M.	

Tickets will be good for return passage on any regular trains within ten days, allowing stop off at Philadelphia within limit.

This excursion affords a delightful opportunity to visit the choicest of New Jersey resorts at small expense.

A Million a Year for Advertising.

Much has been written and said about advertisers and advertising, but it is perhaps not generally known that, not only the greatest amount of advertising done in America, but the largest personal advertiser is an American. Several houses, both in Europe and America expend upwards of half a million dollars per year in advertising; but the advertiser referred to has actually expended during the past year over a million dollars wholly in advertising. This vast sum of money has been carefully, judiciously, scientifically expended, and it has been paid a profit of fifty cents for every dollar expended.

Here is certainly a valuable lesson for those who advertise or have advertising in contemplation. It shows that half-hearted attempts at wooing the Goddess of Fortune by advertising are not profitable, and that even extended efforts are unprofitable unless done systematically, scientifically and with the greatest care and judgement.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

Wilbur F. Peters, of Union twp., and Julia H. Emerich, of Unionville.

Carleton L. Temple, of Bellefonte, and Martha A. Minnemeyer, of Milesburg.

Harry W. Packer, of Beech Creek, and Lydia A. Singer, of Eagleville.

Sylvester P. Confer and Ida G. Beatty, of Liberty twp.

Valentine Fleck and Lillie Mayes, both of South Philipsburg.

Isreal Liverstein and Rebecca Bloomburg, both of Philipsburg.

W. A. J. Korman and Catura L. Hosterman, both of Aaronsburg.

James A. Pickel, of Bellefonte, and Mary E. Kline, of Benner twp.

Albert Johnson, of Cohn, Union Co., and Harriet E. Woods, of Boalsburg.

Andrew Etters and Myrtle Zimmerman, both of Pine Glenn.

Clinton County's Old Soldiers.

About three hundred old soldiers of Clinton county met at Hecla park on Friday and formed an organization known as the Veteran Association of Clinton county. The officers elected for the ensuing year are General Jesse Merrill, President; H. D. Loveland, vice president; G. T. Michaels, secretary; L. C. Furst, treasurer. One hundred and eight soldiers joined the Association. During the day addresses were delivered by W. C. Kress, Esq., of Lock Haven, and D. F. Fortney and John G. Love, Esq., of this place.

—The Water Committee of Borough Council on Tuesday evening awarded the contract for supplying the new watr pipe to be put down from the spring to the diamond, to the Bellefonte Supply House, their bid being $1,546.00. An idea of the quantity of stuff required to lay that length of pipe may be gathered from the fact that the whole thing will weigh almost eighty tons.

TME HOWARD CHURCH CASE.

Is Now Attracting Attention in the Supreme Court.

Tuesday's Philadelphia *Press* has the following about the famous Howard Disciple church case:

Another dispute between a president judge and associate or lay judges has been developed by a petition filed in the supreme court. The facts as set out are as follows: J. Z. Long and others, on October 21, 1890, filed a bill in equity in the common pleas court of Centre county against H. L. Harvey and others. This was referred to a master, who in May last filed a report sustaining the complainants and directing that the respondents be enjoined from exercising the offices of trustees and elders of the Disciple church of Howard, Pa., and that they pay the costs. Exceptions were taken to this report and on June 6, they came up for hearing before A. O. Furst, president judge, and C. A. Faulkner and Thomas Reilly, associate judges of the court.

On June 8, Judge Furst, without consulting with his associate judges, handed down a decree, dismissing the exceptions and ordering that the master's report be confirmed absolutely. On June 26 the associate justices handed down a decree annulling Judge Furst's decree and ordering that the bill be dismissed, the complainants to pay the costs. On July 14 the complainants entered an appeal from this decree and notwithstanding their own appeal, procured on July 26, an injunction under Judge Furst's decree and issued a fi. fa. for the collection of costs. Before these writs could be executed the respondents entered an appeal from Judge Furst's decree ank filed a certiorari to the supreme court to the July term and the writs were returned unexecuted. On the 21st inst., upon the complainant's petition, Judge Furst filed another decree allowing a writ of assistance and ordering the sheriff to execute it as well as the writs of injunction and fi. fa.

The petition alleges that these orders of Judge Furst are illegal and void, and Justice Dean has allowed a rule to show cause why the proceeding should not be stayed, and made it returnable on the first Monday of October at Pittsburg.

A Successful Woman Farmer.

Miss Mary E. Cutler, of Hollistown, Mass., is a successful farmer. She became sole manager of Winthrope Gardens, an estate of 68 acres, after her father's death 10 years ago. She quit teaching and determined to carry on the farm, against the advice of friends, who thought it impossible for a woman to make a business success of farming. Proceeding carefully, the business has constantly increased under her direction. She gives her attention chiefly to the raising of fruits and vegetables, which are sold from her teams direct to the consumer, the surplus going to the canneries. She has 1,400 bearing peach trees, and has not had a failure of the crop for seven years. She has six acres in nursery stock, and a growing trade in young trees, plants and cut flowers. Besides personally superintending her farm, Miss Cutler gives some attention to art and music. She is prominent in the Grange, and writes for Agricultural papers.

Wreck On Beech Creek.

Another freight wreck occurred on the Beech Creek railroad about seven miles west of Beech Creek borough early Tuesday morning, caused by a broken axle. Fifteen cars were piled up, delaying traffic several hours. A drover named Smith of Mahaffey, who was with a car load of sheep, was thrown under the wreckage and killed. A brakeman named Haines, of Jersey Shore, had his collar bone broken his left leg badly torn and his hip fractured. A large number of sheep were also killed.

The injured man and the body of the killed drover were taken through Castanea about noon on their way to Jersey Shore. The body of Smith will be sent to his home in Mahaffey. The condition of Haines was such Tuesday afternoon as to give little hope of his recovery.

Its Relation to Other Years.

The year 1894 corresponds to the 1898th from the birth of Christ; to the year 7402 of the Byzantine era; to the years 5654-55 of the Jewish era (the latter year beginning at sunset on September 30;) to the year 2647 since the foundation of Rome; to the year 2554 of the Japanese and to the years 1311-12 of the Mohammedan era, the year 1312 of the Hegira having begun on the 5th instant.

—The New York Tribune editorially comments on the Gardner defalcation as follows: The cashier of the Second National Bank of Altoona; Penn., has gone to Japan, carrying away a heavy ball of the assets of that institution, possibly with the intention of helping out the island people financially in their present crisis. To make things even some other cashier ought to run away to China with a like amount to bolster up the fiscal system of the pig tails. It would be hard on the home depositor, but that type of cashier is superior to such narrow and local interests. The case presents a variety of considerations as the last one of like kind did and the next one will; but it seems useless to enlarge upon them.

PLAYING CARDS TAXED.

Dealers Must Take an Account of Packs on Hand.

Under the provisions of the new tariff law that went into effect this morning all playing cards in stock on and after August 28 will be subject to a tax of two cents per pack. All dealers will be required to take an account of the number of packs they had on hand this morning and have them ready to report to Deputy Revenue collector Brosius when that official calls.

This additional tax will not meet with favor by many of the dealers, especially those who have a large stock unsold. The new law will have the effect of temporarily decreasing the number of dealers in playing cards, but when the measure has been in effect long enough to give the manufacturers an opportunity to pay the duty before shipping their products, many of those who are now reluctant to pay the tax will probably restock. From the day the law goes into effect the manufacturers will be compelled to place a stamp upon every pack sold by them.

Owing to the introduction of this clause in the tariff bill it will be seen that much extra labor is being placed upon the internal revenue officers. Mr. Montgomery will be a very busy man for some time to come, as the work of taking in all the places that handle playing cards will be quite a task.

Prizes for Firemen.

A list of events to be contested for at the state firemen's convention in Norristown, on September 20th, has been completed as follows: Free for all hose race, open to the world, $100 to the first, $50 to the second; free for all steamer contest, open to the world, $100 to the first, $50 to the second; hose race, companies of the state, $100 to the first, $50 to the second; hook and ladder race, companies of the state, $35 and $15; hub races, companies of the state, $50 and $25; drill prizes, companies of the state, $50 and $25; horse hose carriage race, for half mile, companies of the state, $25. The tournament will take place at 9 a. m. The parade will take place on September 20.

Why Is This?

Complaint has been made to us by a number of old soldiers that the law relating to the burial of indigent soldiers, especially that part relating to the erection of tombstones, is not being fully complied with by the county officials. In the Pleasant Gap cemetery are the graves of three old soldiers, namely, P. Redding, John R. Tate and Michael Fausey, all unmarked by tombstones; and yet, it is alleged that in the last report of the county commissioners appeared an item of $45.00 for furnishing tombstones for these identical three graves. Now, why is this? is the question the old soldiers would like to have answered. It certainly is a state of affairs that needs looking into very badly.

War and Peace Festival.

On account of Innes "War and Peace Festival" to be given at Williamsport, Friday, August 31st, the Central R. R. of Pa., will sell excursion tickets from Bellefonte and all local points to Williamsport and return good for two days at one way rate for the round trip.

J. W. GEPHART,
General Superintendent.

Days of Registration.

September 6 is the last day for registration, and the assessors will sit at the various voting places, to make necessary changes in their lists, on September 5 and 6. On the 7th they will make their returns to the county commissioners. Every voter should make sure that he is registered.

Judicial Conference.

The first conference of the Republican conferees of the judicial district of Huntingdon and Centre will be held at Tyrone on Thursday, August 30, at 2 o'clock. K. A. Lovell's conferees are H. B. Dunn, T. W. Myton and Chas. E. Brown. John G. Love's conferees are Mr. Gray, Dr. J. W. Dunwiddie and Cameron Burnside.

—An Allegheny mountain wiseacre has turned up who knows why cattle are dying on the reserves. This sage of the ridges says that during dry weather there are three kinds of dew—mountain dew, honey dew and "pison" dew. The eating of "pison" dew is what kills the cattle.

Hon. Thomas V. Cooper and wife, of Media, are visiting friends in Bellefonte.

"BIG "A" LITTLE "a" R-O-N."

That is the Way Williams Was Welcomed Home.

It was perhaps beyond the fondest hopes and wildest anticipations of anyone in Bellefontewhen the democratic conferees of this Congressional district departed for the congressional conference at Ridgway on Wednesday that they would succeed in getting a Centre county man nominated but, after a prolonged session and no little fight, that is just what they done and the honors were heaped on the shoulders of Mr. Aaron Williams, of Bellefonte. Of course, such honor for a Bellefonter could not be allowed to pass unnoticed and his friends here determined to give him a royal reception and welcome home.

It was some time before they could ascertain just when he would arrive but it was finally settled that the whole crowd would come in on the 10.52 train over the Central railroad. Consequently the Bellefonte band was engaged for the occasion and was at the depot on time. Several hundred people were also in waiting and ready to greet the hero of the occasion. The train came in on time with the party on board. Williams was properly received and escorted to a waiting carriage which he entered and the procession started. The Bellefonte band led off and the route was south on Water street to High, up High to Allegheny and out Allegheny and up Howard to Mr. Williams' home.

The newly made nominee was at once called on for a speech, but as he was pretty well tired out he simply thanked the crowd for their demonstration of approval of the work of the conference, and promised, if elected, to so conduct himself as to always hold their esteem and favor. And then, in the name of the assembled multitude Ira C. Mitchell, Esq., made a brief speech welcoming nome and congratulating Mr. Williams on his nomination. A number of others were called on for speeches but they failed to appear and, as the hour was late, the crowd soon went home.

Of course all this display was not done without the brilliant illumination of colored lights, the firing of roman condles and the boom of the huge fire cracker. And conspicuous in the line of the parade was a banner on which was inscribed "Big A Little a r-o-n."

Crops in Bad Condition.

The crop bulletin issued by the Pennsylvania state weather service for the week shows the crops to be in a very bad condition throughout the state owing to the extreme dry weather. In the northeastern section of the state drouth is practically broken, but the crops will not recover from its effects. The report from that section is more encouraging, however, than in other sections. The drouth in the northeastern section is partly broken. The fall crops have stood it better than was expected. Fruit is scarce. There was very little rain in the northeastern section during the week. Most of the crops are permanently injured. There were light rains in the southwestern section, but the crops were too badly injured to recover. Springs and small streams are completely dried up and owing to short pasturage stock is being fed in some localities. The crops in the central section have improved a little during the week. Fall plowing has been commenced in every section but is greatly retarded owing to the dry condition of the soil.

A Boom for Steelton.

Harrisburg *Call*: The Pennsylvania steel works at Steelton have been doing remarkably well, notwithstanding the depression in business. At present about 3,500 men are given employment at the steel works, but orders have been received and others are promised within three or four weeks when from 800 to 1,000 more men will be put to work. All old employes will be taken back. This is not all either, but the big steel plant will continue employing about 4,500 men until January 1, 1895, at any rate, and perhaps longer. Pig iron is needed as well as fuel and other iron. Street railway rails are being made in large quantities. The bridge and construction department is pushed with orders. Steelton will receive a regular boom.

A Big Affair for Pittsburg.

Pittsburg enterprise is expending over $25,000 to provide ten performances of Pain's magnificent pyrotechnic spectacle, "The Siege of Vicksburg." The production will occupy ten acres of ground for the buildings, scenery, large stage, lake, fort and the grand stand, which will hold 10,000 people. The play will be first produced on Saturday evening next, then on the 3, 6, 8, 10, 11, 12, 13, 14 and 15. G. A. R. visitors to Pittsburg during the encampment will find a rare treat in this gigantic production. There will be over 600 performers in the piece.

—Vacation season is now about ended and the small boy will soon be compelled to lay aside his hook and line and strap his satchel of books and with his pockets full of marbles march off to school. Only one week more remains of the vacation term and the boys, as well as the girls, should make the most of it and then when they start to school, make up their minds to study as hard as they played during vacation.

—Rev. Russell H. Conwell, D. D., of Philadelphia, well known to many of our readers, has been suffering for a year with a pain in the back of his head, which proved to be an abcess forming at the base of his brain. He has been traveling in Europe, but no surgeon ventured to perform an operation until he met Dr. Jail Petterson, a Swedish surgeon, who successfully removed the abcess, and Dr. Conwell says he feels like a boy again. He expects to be home next month.

Cattle Dying by Hundreds.

If reports yesterday made public are correct, a dangerous disease, known as pleuro-pneumonia, is playing havoc with the cattle on the Allegheny mountain, some distance from Tyrone, killing scores of them, and their dead carcasses lie scattered around and, should we have a heavy rainfall, the ground on which they lie would be washed by water that would flow into Sinking run, from which Tyrone receives its water supply. The plague is known to be prevalent among the cattle herded together by the farmers of Warriorsmark and Sinking valleys. The enclosure of Coleman & Fox, covering an area of 1,400 or 1,500 acres of mountain land at the summit, considerable distance fortunately from the ravine from which the Tyrone water supply flows, is said to contain a large number of decaying animals that have died very recently from the effects of this fatal disease. And the disease, according to all accounts, is rapidly spreading through the entire region, claiming for victims a very large percentage of the animals which it attacks. It is estimated that 400 or 500 cattle are in the reserve or enclosure mentioned, and it is possible that the dead are not only numbered by score, but hundreds may be scattered over the large area of territory. The Tyrone board of health is investigating the matter and will do everything possible to suppress the disease and its effects.

Newton Hamilton Camp Meeting.

Wednesday was Epworth League day, and there was a large attendance of the young people. Rev. W. Maslin Frysinger, D. D., of Carlisle, preached in the morning. His theme was "The Epworth League a Revival of Methodism." At 2 o'clock a model Junior leaugue meeting was conducted by Rev. R. H. Gilbert, at which there were recitations by Misses Esther Black, Lena Blair, Florence Hurley, Miss Mattern, Eddie Dunkle, solo by Miss Jessie Greer, and blackboard talk by Rev. Gilbert. At the afternoon service the speakers were Rev. V. T. Rue, of Tyrone and Curtin G. Repp, of James Creek. An admirable paper was read by Miss Lizzie Akers upon the Epworth league and the heart. The regular league service at 6 o'clock was led by Rev. B. H. Hart, and the time was spent in experience and song. Among the others who testified were Revs. Rue, Baldwin, and Harzell, a former president of the league and who started the young people's meeting at the camp 17 years ago. Rev. Joseph Grey, of Buckhorne, preached in the evening from Psalms vii: 3-4.

A Wild Man in Potter County.

A giant wild man is terrorizing the inhabitants of Potter county according to the Galeton Gazette. He is described as a giant in size with high, broad shoulders, extraordinary long arms, large head, and his whole body covered with thick, dark hair. He is probably the same wild man that was reported as having been seen over near Hull's last spring. His appearance has set the county in a commotion.

Plenty of Game This Fall.

Game will be plentiful this fall, so people who ought to know say. Sportsmen will have a harvest. Squirrels, both gray and red, are reported to be thick in the woods, especially those in the upper end of the county, and rabbits and quail are said to be around in large numbers. In some localities the whistling of the "bob whites" can be heard on all sides every morning.

INVALIDS' FOOD.

Chronic Dysentery

MARY S. TORREY, 131 West 63d Street, New York. NEW EXPERIENCE

"There is nothing to be compared to Bovinine for chronic dysentery. During my two years' illness I tried every other invalid food, without avail.

BOVININE
The Original Raw Food

will subdue the worst attack in one day, if taken simply with water, and other foods discarded. If I had known of Bovinine sooner, my disease would never have become chronic."

For sale at all druggists.
THE BOVININE CO., NEW YORK.

A Musicians Picnic.

The annual reunion of the Musicians' Union will be held in the Ard grove, near Pine Grove Mills, on Saturday, September 8th. This promises to be one of the largest reunions ever held in the history of the organization. From all indications several thousand people will be present. The principal attractions of the day will be band, vocal and instrumental music of various kinds. A number of bands have been invited and they will be consolidated into one which will make the woods resound with harmonious strains. The parade, under the leadership of Prof. Weaver, will take place at 10 o'clock. It will be a fine display, and will be worth seeing. The speakers of the day will be Rev Aikens, of Pine Grove; Rev. Hess, of Boalsburg, and Rev. Sarvis, of Port Matilda. It will be a basket picnic, although refreshments will be served on the ground, the proceeds of which will go toward paying expenses. It will be a great day of pleasure and everybody is invited to attend.

New Coal Operation.

Messrs. Bruce and Webb Hughes commenced yesterday the opening of a new mine on the Hugh land Decatur township. The vein that will work is known as the "C" prime. It is about 3½ feet in thickness, and of a very excellent quality. The work of getting the mine in shape for operation will be pushed vigorously, and it is thought the firm will be ready to ship coal about the middle of October. The gentlemen are brothers, and both young men of good business tact and will no doubt make a success of their new venture.—Philipsburg *Journal*.

There is probably nothing more ridiculous than the testimony of one of Chicago's deputy marshals before the strike commission. This astute person gives utterance to the astonishing statement that "tough kids, about 8 years old or a little older," committed the acts of violence during the railroad strike. As a convenient scapegoat in all strikes the "rowdy element" has been compelled to bear much on its shoulders that all well informed people kown is really done by the strikers, but a rowdy element which is but 8 years old is a little too weak and too transparent. The American Railway Union's cause needs something stronger to divert attention from the atrocities it engineered than the truckling testimony of an officer that "little boys did it." Chicago boys of 8 may be precocious, but the precocity suggested by the testimony is of the impossible kind.

THE TWILIGHT COTTAGE NO. 12.

This 7 room frame cottage can be built for $2500, the price varying slightly according to locality.

Our readers will be pleased to know that we have secured authority to offer the complete plans and specifications of the "Twilight" Cottage No. 16, on the above terms, 50 cents and the certificate below clipped from this paper.

A set of these plans contains five sheets, each sheet 14x25 inches, blue-printed, such as are used by architects engineers and builders.

SHEET No. 1 consists of views of front elevation and prospective.
SHEET No. 2 consists of side elevation and interior sectional views.
SHEET No. 3 illustrates different floor plans.
SHEET No. 4 shows various details, sections of porch, door frame, window frame, stairs, etc.
SHEET No. 5 covers full specifications, itemized estimate of cost of all materials used, cost of labor, with full particulars and advice regarding division of cost of various lines of materials, instructions and suggestions to builder, etc.

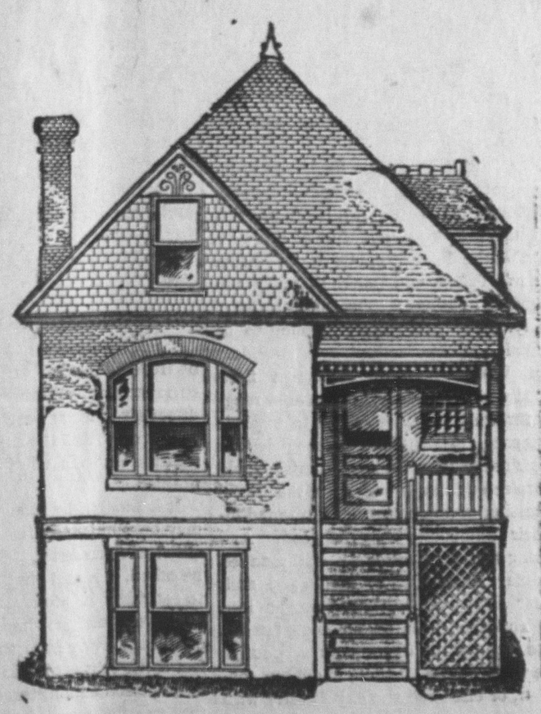
Any one interested in a cheaper cottage can use the certificate to cover the "Pansy" Cottage No. 12, shown below, the plans for which are fully as complete and elaborate. These are engraved on fine bond paper, and will be supplied by the REPUBLICAN on same conditions. Both plans will be sent postpaid for $1.00 and two certificates from this paper.

☞This Certificate when accompanied with 50 cents will entitle holder to a full and complete set of Plans with specifications of

"Pansy" Cottage, No. 12,
OR
"Twilight" Cottage No 15.

All plans are under the supervision of the UNIVERSAL PLAN COMPANY; they are drawn to a scale and are mechanically correct and guaranteed ready to Build from—everything that can be furnished by a competent architect being provided for. They are neatly wrapped in pasteboard tube and sent postpaid to any address on above terms.

An architect would require upwards of $25.00 for furnishing plans with all the details given in ours and readers of the REPUBLICAN are thus afforded an opportunity seldom offered. Every one is interested in building to some extent and with the valuable fund of information given at a minimum cost you should not hesitate to take advantage of this offer. Send all orders direct to the REPUBLICAN office, Bellefonte, Pa.



THE PANSY COTTAGE NO. 12.

This 5-room cottage, besides attic room and bath room, may be built in brick for $1700, or in frame for $1400, the price varying slightly according to locality.

Business Education for Ladies.

The demand for lady office assistance who thoroughly understand book-keeping, shorthand and typewriting is increasing every year. Almost every office or store must have either a stenographer or book-keeper, or both combined. Most of the stores of any size in all of our towns and cities are of late putting in the cash system, and where this is done, a cashier is necessary and as a rule a lady is preferred, but in order to fill the position she must be competent to take charge of the books. Then it is also necessary, in order to be a complete office assistance to have a knowledge of shorthand and typewriting, as most business men prefer to employ those who are able to attend to the correspondence as well as the books so that two persons do not have to be employed to do the work of one. The salary paid as a rule is very good, the hours short and the work pleasant. There seems to be no other field of labor which offers so much encouragement to young women who have or may have their own way to make in the world.

Increase In Gold Reserve.

Washington, Aug 23.—Both the treasury balance and the gold reserve are feeling the beneficial effects of a revival of business. The net balance to-day stands at $122,710,000, a gain of $700,000 to-day, of which $54,382,000 is in gold. This gives the treasury department a very comfortable balance outside the gold reserve upon which to carry on the business of the government. The gold reserve increased to-day over $350,000, with prospects of a further daily increase of almost as much for some time to come.

Nearly all the heavy payments of the treasury for the month have been made, including pensions, and the prospect now is that the balance sheet for August will show an excess of receipts over expenditures of $5,000,000. The prospects for continued good receipts after the tariff law becomes an actuality are believed in treasury circles to be good.

Children Cry for Pitcher's Castoria.

Williams for Congress.

Ridgway, Pa., Aug 23.—Aaron Williams, of Bellefonte, was nominated for congress this evening by the Democratic conference for the twenty-eighth district on the seventh ballot. The organization of the conference was effected by Clearfield and Centre counties allowing their delegates fractional votes, so that each county cast but three votes, as has been the custom formerly.

Died at Beech Creek.

J. Steward McCalmont died at his home near Beech Creek on Friday afternoon, rom a stroke of paralysis, aged 67 years. He was a son of James A. McCalmont and lived the most of his lifetime in Marion township, and was well known in Bellefonte. The funeral will occur Sunday afternoon.

—The Bellefonte band was out in the outskirts of the town on Friday evening giving serenades to the residents in those localities. The boys now play like any veterans and, of course, their music is duly appreciated.

—From the very smoky appearance of the atmosphere on Sunday, one would conclude that some extensive forest fires were raging somewhere.

DON'T ACCEPT IMITATIONS.

THE PROCTER & GAMBLE CO., CIN'TI.

WILL NOT SIGN THE TARIFF ACT.

Speaker Crisp Has an Interview with the President.

Washington, Aug. 23.—When it was known that Speaker Crisp had seen Mr. Cleveland to-day there was a rush of members to the speaker's room in order to learn the president's intention as to the tariff. All the speaker would say was that the president would probably allow the bill to become a law without his signature. He said the president had not told him what he would do, but from his general conversation regarding the bill the speaker made the foregoing deduction.

The president it is said has not hesitated to express to some of his callers his objections to the bill. These objections are as strong to-day as they were when his famous letter to Chairman Wilson was read in the house more than a month ago. None of those who saw the president asked whether he would veto the bill. The constitutional limit of ten days in which the bill may become operative without the president's signature will be reached at midnight on Monday next.

Some of the democratic leaders who saw the president this morning have urged him strongly to sign the bill. They have represented that any other course would discredit the measure and that it would be a serious handicap to them when on the stump during the October campaign. The president is reported to have heard these gentlemen patiently and to have shown by his response that he was not insensible to their argument. In some cases they returned to the capitol feeling that, after all, there was a possibility that the presidential signature would be affixed to the measure.

Japan and Corea.

The King of Corea's declaration of independence is, when all is said and done, a political card of no mean importance. Of course the King declares himself independent of China, and begs for the aid of Japan in expelling the Chinese invaders, because he is in the power of the Mikado. At the same time the very fact that he is so completely under Japanese control is of prime significance, and considering that the country is practically occupied by the Japanese, who hold the mountain passes in force, the situation becomes rather more simple than the Chinese dispatches announcing great victories would indicate. What it amounts to is just this, that Japan has moved first, holds the debatable ground, and will have to be dislodged to be defeated.

It is unfortunate that the prospects of obtaining exact information of the progress of the war are so small. Of course the Japanese reports will prove much the more reliable, in which connection it is to be noted that the Court of Inquiry of Shanghai has upheld the Japanese version of the attack on the Kow Shing; but still we shall be very much in the dark for some time to come as to what is actually happening in the northern part of the Corean peninsula, where the fighting must begin, when, if at all, the pitched battles are delivered. The outlook for the present, however, is much more in favor of Japanese than of Chinese success, and on the whole it seems possible to predict that the Chinese will be forced to throw away great numbers of troops before they can drive the Japanese to the south.

The Season for Game.

The following abstract from the Pennsylvania game laws shows the season when game may be legally killed:

Turkeys, from October 15th to January 1st.

Ducks, from September 1st to May 1st.

Plover, from July 15th to January 1st.

Woodcock, from July 4th to January 1st.

Quail, from November 1st to December 15th.

Ruffled grouse or pheasant, from October 1st to January 1st.

Rail and reed birds, from September 1st to December 1st.

Elk and deer, from October 1st to December 15th.

Squirrels, from September 1st to January 1st.

Hares and rabbits, from November 1st to January 1st.

There shall be no shooting, hunting or fishing on Sunday, under penalty of $25.

Judge Thomas M. Cooley in his Saratoga address before the American Bar association has expressed with equal authority and accuracy the duty of lawyers to aid both in enforcing the law and educating the community in its obligations toward the law. Lawyers have sunk in this country to the position of mere advocates, and it has almost been forgotten that they are by their office the guardians of the law and the instructors and leaders of the community in protecting and enforcing law. Judge Cooley does not exaggerate by one whit the danger and lawlessness in this country. By nothing is American peace, progress and liberty more threatened than by the general disregard of law shown by all classes of the community.

A Clean State Campaign.

The stalwart, handsome form of General Hastings was seen in our city yesterday mingling with his many friends and making his arrangements to enter into a general canvass of the state. In the meantime Colonel Singerly, the popular candidate of the Democrats takes a few hours now and then to lay the groundwork for the complete organization of the Democrats in Pennsylvania. General Hastings yesterday called on Colonel Singerly to pay his personal respects, and the two opposing candidates for the highest civil position of the commonwealth will end the campaign the same warm personal friends they have been for many years.

It is gratifying to know that we shall have a thoroughly clean state campaign. If any personal assault should be made upon the character of General Hastings it would be promptly repelled by Colonel Singerly's own great newspaper, the Record, and any like attack upon Colonel Singerly would be resented by every reputable newspaper of this city. Not only the candidates, but the leading public journals which support them respectively give positive assurance to the people of the state that the coming battle for the gubernatorial office will be free from the filth and slime of partisan malice, and that the defeated candidate will retire from the contest not only beloved by his friends, but respected by friends and foes.

The people of Pennsylvania have become too intelligent to sanction vituperation that once deformed our political conflicts. It was once the first duty of a political opponent to defame the candidate as well as the party he battled against, and some of our conflicts have been nearly as disgraceful as were the contests of olden times between the Federalists and Republicans under Adams and Jefferson. Fortunately we have outgrown all such political methods, and Pennsylvania will this year give to the country a campaign of unusual earnestness and yet a model of dignity and decency. Whatever may be the result of the contest, neither of the candidates, nor any of their leading supporters, will have occasion to regret the methods adopted to promote the success of their respective favorites.—Phila. Times.

The full returns of the vote cast in the recent election for Supreme Judge in Tennessee show that there was much more interest felt in the contest than has been supposed. The total vote was 276,447, an increase of 12,585 over the Gubernatorial vote in 1892 and an increase of 11,439 over the Presidential vote of the same year. Compared with the former vote the Democrats obtained all this gain and won over 6000 more votes from the opposition. But their majority this year is only 13,869, whereas they had a plurality in 1892 of 27,000 over the Republicans on the Gubernatorial vote and a plurality of 37,504 over the Republicans on the Presidential vote. The small majority of the Democrats in the August State election will stimulate interest in the Gubernatorial campaign which will begin with the nomination of the Republican ticket this week. There must be nearly 100,000 voters in Tennessee who did not cast a ballot week before last. With such a large reserve to draw upon it is evident that Tennessee is still a debatable State.

Foreign Anarchists are lucky in having a friend in the House of Representatives in the person of John De Witt Warner, a Democratic member from New York city. Mr. Warner doubtless suspects that the Anarchistic vote in his district is cast for him and that it is for his interest to have more of it. He objects, therefore, to closing American ports to a class of men pledged to do what in them lies to destroy the Government and all that stands for power and authority in the present organization of society. They are public enemies whose mission is violence, disorder and destruction. Warner's objection and the absence of a quorum will prevent the passage of the Hill anti-Anarchist bill at this session. It is unfortunate that the single measure which would have done much to relieve the comparative sterility of the session should be thus placed at the mercy of an obstructive demagogue.

—Local bicyclers are getting into practice for the races to be held at Hunter's park on September 1st, Veteran's picnic day. These races will prove among the most interesting of the day's events and will doubtless attract a large crowd. The best cyclists of Blair, Clearfield, Clinton and Centre counties will be entered in the contest, and valuable prizes will be given for all races.

Court In Session.

The regular August term of quarter sessions court convened this morning with President Judge A. O. Furst and Associates Thomas Riley and C. A. Faulkner on the bench. The Grand jurors were called and George M. Boal appointed foreman. They were then sworn and given the regulation instructions after which they retired for the consideration of any and all matter presented to them.

Forty-five out of the forty-eight traverse jurors answered to their names when called. The list of constables was called and each in turn presented his report. Several applications and petitions were presented to the court for its approval and signature, and a little other miscellaneous business transacted after which court adjourned until this afternoon.

SULPHUR BITTERS

THE GREAT German Remedy.

TRUTHS FOR THE SICK.

For those deathly Bilious Spells depend on SULPHUR BITTERS it will cure you.

$1,000 will be paid for a case where SULPHUR BITTERS will not assist or cure. It never fails.

VIGOROUS HEALTH for MEN

THE PASTILLE CURE FOR NERVOUS DEBILITY

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

LAST HOURS OF THIS SESSION.

Congress Will Adjourn at 2 O'clock This Afternoon.

Washington, Aug. 27.—The expiring hours of the house were marked to-day by an immense concourse of visitors drawn to the capitol by the Knights of Pythias gathering in Washington this week. Gallery accommodations were more than exhausted by the crowds that swarmed the capitol, while on the floor only about one-fifth of the seats were occupied by members.

There were two or three incidents of interest in the course of the proceedings, but nothing was accomplished. Mr. Holman, Democrat, of Indiana, explained that he had not for many years asked the house to pass a private bill, and asked for the consideration of a bill to pay two old constituents of his the amount of a claim for certain boats on the Ohio river destroyed by government forces in 1863. His statement of facts in the case was met by several questions from members, and finally, amidst considerable laughter, an objection was made by Mr. Marsh, Republican, of Illinois, which dashed his hopes of passing the bill.

Over a resolution to print 60,000 copies of the tariff bill, with comparison of rates in previous similar measures, a brief but animated debate occurred as to the value of such statements.

Mr. Wilson, Democrat, of West Virginia, chairman of the committee on ways and means, expressed the opinion that it was impossible to make a satisfactory comparison of ad valorem and specific rates. The resolution received on its passage 76 affirmative and 4 negative, whereupon Mr. Johnson, Democrat, of Ohio, made the point of "no quorum."

Pending a count by tellers, the point was withdrawn, and Mr. Haughen, Republican, of Wisconsin, announced the death this morning of his late colleague, Representative George B. Shaw, at his home in Wisconsin. After the adoption of the customary resolutions and the appointment of a committee to represent the house at the funeral, the house, at 1.25 p. m. adjourned until to-morrow.

A Remarkable Man's Career Closed.

Haverhill, Aug 21.—Stephen K. Fowler died at his home in West Roxford last evening, of heart disease. He was born in the house where he died, 76 years ago. In early life he went to New Orleans, apprenticed to a firm of merchants who sent him to trade with the Indians. Later he was taken into the firm.

When the war broke out he lost $875,000 by the burning of cotton by General Butler. Later he bought cotton in Mexico. He was on General Bragg's staff in the Confederate army until the fall of Vicksburg. He lived in Paris until the close of the war.

He afterward speculated in mahogany in Central America, then went into the dry goods business in New York and lost $3,000,000 in the panic of 1873. He managed a mine in Colorado for a syndicate and sunk $200,000. Of late years he had engaged in market farming in West Roxford.

Mr. Fowler was a literature and lecturer. One of his daughters is married to the private secretary of the king of Italy, and the other to Martelli, the artist. Both live in Rome.

HAD A COOL RECEPTION.

The Ex-Coxeyites Must Get Out of Philadelphia or Go to Work at Once.

Philadelphia, Aug 23.—The sixty ex-Coxeyites, who were unloaded from a train upon Philadelphia last night, whither they had been sent by the Maryland authorities after having been released from that state's house of correction, met with a chilly reception from the local authorities to-day. The late followers of the Commonweal agitator spent the night wherever they found shelter, and this morning two of their number, acting as a committee, called at the office of Mayor Stuart. Their object was to request that homeward transportation be furnished the members of the "army."

The chief executive, however, was not in the city and an attache of his office directed them to Superintendent of Police Linden. With meek countenances the pair appeared before the latter functionary and related their story, only to be met with a bluff, "Get out of town as quickly as you can." Thus admonishing the committeemen the police superindendent made no reference to the furnishing of transportation, but supplemented his advice with a warning that the Philadelphia house of correction would receive the army individually and collectively, if it did not depart.

The superintendent afterward relented and said the army might stay in the city if it went to work, but the committeemen were not seeking employment and they withdrew. As the police are keeping a sharp watch upon the "hoboes" their departure before long by a route as yet unselected is looked for.

The Land of Promise

Is the mighty West, the land that "tickled with a hoe laughs at a harvest;" the El-Dorado of the miner; the goal of the agricultural emigrant. While it teems with all the elements of wealth and prosperity, some of the fairest and most fruitful portions of it bear a harvest of malaria reaped in its fullness by those unprotected by a medicinal safeguard. No one seeking or dwelling in a malarial locality is safe from the scourge without Hostetter's Stomach Bitters. Emigrants, bear this in mind. Commercial travelers sojourning in malarious regions should carry a bottle of the Bitters in the traditional grip-sack. Against the effects of exposure, mental or bodily over-work, damp and unwholesome food or water, it is an infallible defense. Constipation, rheumatism, biliousness, dyspepsia, nervousness, and loss of strength are all remedied by this genial restorative.

Cholera Infantum.

That most dreaded summer complaint occurring mostly among children from six months to three years of age, is quickly cured by the use of HUMPHREYS' SPECIFICS 4 and 6. For sale by all druggists-25c. each.

—The state convention of the Patriotic Sons of America will meet in Erie Tuesday. The treasurer, Irwin S. Smith, of Reading, will report: Amount of headquarter's funds in the hands of the state treasurer during the year, $18,797; amount of state camp building funds in the hands of state treasurer during the year, $1,360; total, $20,157. Amount of headquarters' expenses during the year, $11,468; amount of building expenses during year, $575; total, $12,044. Balance in hands of state treasurer, July 31, 1894, $8,113.

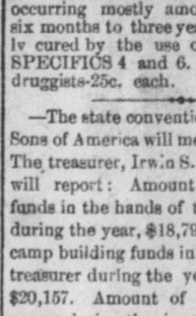
During the hot weather impurities in the blood may seriously annoy you. Expel them by taking Hood's Sarsaparilla, the great blood purifier.

—The patronage of the Sea Shore Excursions arranged for by the Pennsylvania Railroad for this season has been so flattering to the Company that an additional excursion has been arranged for, the date September 6th Rate for round trip $5.75 taking in either Atlantic City, Cape May, Sea Isle City, Ocean City, Anglesea or Wildwood. Tickets good for ten days and good to stop off in Philadelphia returning within limit.

Children Cry for Pitcher's Castoria.

All That's Claimed

"I had a poor appetite, that tired feeling and was run down, but Hood's Sarsaparilla has done me a great deal of good. I have a better appetite and do not feel tired. I can recommend Hood's Sarsaparilla as an excellent spring or fall medicine to keep the blood in order. Myself and three daughters have taken over six bottles, and it has done us much good. We do not now have to call upon a doctor, as formerly, in the spring time, and I can say that Hood's Sarsaparilla is all that is claimed for it. I most heartily recommend it, and shall always keep it in my house." ALBERT KINSEY, Auburn, Pa.



Albert Kinsey

Be sure to get HOOD'S **Cures**

Hood's Pills are purely vegetable, and do not purge, pain or gripe. Sold by all druggists.

PULLMAN ON THE STAND.

He Appeared as a Voluntary Witness on Monday Afternoon.

Chicago, Aug. 27.—George H. Pullman appeared before the national labor commission this afternoon as a voluntary witness. The president of the company, which bears his name, said the reasons for reducing wages were purely a matter of business, as the manufacturing department was losing money. He saw no reason why the company, although it had this year declared a dividend of $2,800,000 should raise the wages of men in a department which was losing money.

Mr. Pullman stated that for months at a time they didn't have an order for a car, and finally to prevent the shutting of the shops and the consequent suffering that would entail on the employes the company bid for contracts for cars at a loss of from $300 to $400 a car. Mr. Pullman said that it cost about $50,000 to keep the men at work as long as they were.

Continuing, Mr. Pullman said: "I explained all this to Mr. Heathcote, the leader of the strikers, who said to me: 'We want the wages of 1893, I informed him that it would be impossible, I told him it would be a most unfortunate thing if the wages of 1893 were restored; that there were only six or eight weeks' work here as it was and there was none in sight at the rate on which the wages of 1893 were based."

As to matters of detail the witness referred the commission to Vice President Wickes, who followed him on the stand. The morning session was of little interest.

TO THE WORLD OF WOMEN.

Mothers and Daughters Restored to Health and Strength.

Weak, nervous, delicate, overworked women, are the ones that need a strength builder, a tonic for the nerves, and a cure for that awful internal trouble that is wearing out their lives. Thousands of women have found such in Dr. Kennedy's Favorite Remedy. Mrs. Christiana Beal, of Jonesport, Me., writes that her daughter had been a great sufferer from female trouble, and after repeated trials of Doctor's prescriptions and other so-called cures, she used Dr. Kennedy's Favorite Remedy and it permanently cured her.

If you have headache, uterine catarrh, leucorrhœa, or irregular monthly sickness chronic weakness, bearing down incidental to change of life, or any of the attending evils that are present in female complaints, use Favorite Remedy, for it will build up quickly the run down constitution and bring refreshing sleep. It will dispel those tired looks and feelings, restore the nervous system and permanently cure you. Our daughters grow up weak and delicate; mothers can avoid such conditions by giving them Dr. David Kennedy's Favorite Remedy.

All for a Barley Corn.

LaFontaine in one of his fables, tells of a barnyard fowl that scratched up a gem, while scratching for corn. Not knowing its value, he gave it to a stone-cutter for a barley corn. Thus do many persons throw away the priceless pearl of health. A "trifling" cough is neglected, then comes Consumption, then death. Stay the cough, or look out for a coffin. Dr. Pierce's Golden Medical Discovery will cure catarrh in the head, bronchial or throat affections or lung-scrofula (commonly known as the consumption of the lungs). If taken in time, and given a fair trial, it will cure, or the money paid for it will be refunded. It is the only guaranteed cure.

Teams Ready for Practice.

Mt. Gretna, Pa., Aug. 27.—At 6 o'clock this evening all the teams of the Pennsylvania national guard were on the camp grounds, and everything is in readiness for the practice shoot to-morrow. At noon Old Glory was flung to the breeze, establishing Camp Colonel Peter D. Perchment, in honor of the late colonel of the Fourteenth regiment. Lieutenant Colonel O'Neil is in command. The skirmish run will take place on Wednesday, the regimental shoot on Thursday, and the brigade shoot on Saturday.

To-morrow will be devoted to practice. On Wednesday the regimental match will be shot, and on the following day the McClellan cup will be competed for in a skirmish run.

Catch On.

Goods roads, we fear, have not yet taken deep root among Centre county's supervisors. Very little has been done to take our roads of the ruts of the old fogy days. Our county should be one of the foremost in this regard, we stand at the top in many important particulars, but the mud holes, ruts, breaks, etc, show that our public are not yet up the public demands. Our roads are still being made over again and again. Why don't our township supervisors catch on to the improved system of road construction?

The Labor Commissioner's Work.

Chicago, August 28.—The session of the labor commission to-day was chiefly interesting because of the testimony of General Superintendent W. A. Sullivan, of the Illinois Central railroad, who related the history of the strike on that road. He unfolded a plan to settle all labor difficulties. It is to make the labor unions responsible for all overt acts committed by their members and for all violations of contracts made by the heads of organizations and broken by the members thereof.

The commission is trying to get at the cost of the strike to the railroads. To this end several statements were submitted, giving the figures. A number of roads have yet to be heard from.

Among the fifteen witnesses examined during the day was General Nelson A. Miles, who denied saying: "The backbone of the strike is broken," when he returned to Chicago to take command of the federal troops ordered out to do duty in connection with the strike.

At William's Grove.

William's Grove, Pa., August 28.—The second day of the granger's exhibition at this place was largely attended and each train brought thousands to the grounds. The auditorium was crowded to hear the address of the morning by Hon. J. T. Dillman, the populist candidate for governor, who discussed the tariff bill and its future workings. Hon. Leonard Rhone, state master, was the next speaker, and was followed by Hon. A. S. Sloan, of Washington, D. D., and Manager Thomas.

The afternoon session of the granger's reunion was largely attended. The exercises were opened by Hon. Leonard Rhone, who introduced the speaker of the day, Benjamin Butterworth, of Ohio. His remarks were confined to agriculture, patent right and especially to the improved machinery now being manufactured. He was followed by Hon. A. S. Dolan, of Colorado.

This evening a concert and literary entertainment was given.

—Rev. Morris E. Swartz, an old Bellefonte boy, was married on Tuesday, August 28th, to Miss Carrie M. Bashore, of West Fairview, Pa. The happy couple will be "at home" to their friends on and after September first at Hopeville, the present pastorate location of the groom. With Mr. Swartz's many friends in this place we beg to extend congratulations and best wishes.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY,

SAPOLIO

An Extraordinary Apportunity.

$4.80 Worth of Sheet Music,	All for 50 cts.
Best Book on Hypnotism,	
75 Complete Stories, neatly bound,	to every person answering this advertisement,
Our Monthly for one year,	
Transportation all prepaid,	

Also a Fine Watch Free, as a present to the persons sending each thirtieth answer received from day to day in reply to this advertisement.

IS THIS POSSIBLE? YES, IT IS TRUE!

We repeat: For 50 cents received from you, we send you the $4.80 WORTH OF SHEET MUSIC, the best BOOK ON HYPNOTISM, also 75 COMPLETE STORIES, neatly bound, and our household monthly for one year; and, besides that, we make a present to the sender of each thirtieth answer to this advertisement of a Fine Watch, (ladies' or gents,' as desired) of excellent appearance and workmanship, (regular price $7), absolutely free.

THE MUSIC is strictly first-class, new, COPYRIGHTED, regular 40-cent sheet music, printed in the finest manner on a superior quality of paper with engraved title. (Publisher's price, 40 cents a sheet.) It does not consist of old or hackneyed pieces, but of perfectly new copyrighted pieces, which will be sent to our subscribers monthly, as published. As the newest pieces will be included, it is impossible to give titles in advance, but it will comprise the latest and best vocal and instrumental pieces by the leading composers. When you see this music you will be filled with wonder at us being able to furnish it for less than several dollars. If you want to see it before accepting our offer, a sample sheet will be sent for 10 cents.

THE BOOK ON HYPNOTISM is a complete exposition of the wonderful and mysterious sciences of Mesmerism, Hypnotism, Clairvoyance and Mind Reading, and explains the secrets of these peculiar sciences so clearly and forcibly that those things which to most people have appeared strange, unreal, mysterious and supernatural, are made as plain as the light of day.

THE 75 COMPLETE STORIES neatly bound, are a collection of the most excellent and absorbing stories of love, heroism and exciting adventures.

Was so much good value ever offered anywhere for so small a sum? Here you have a supply of fresh and splendid music for a year, and an attractive supply of tip top reading for the same period, all for the small sum of 50 cents, and then you may be one of those who will receive the watches as well. This is an important thing for you to remember. We are anxious to double our subscription list within 60 days, and we have realized that a **supreme effort** is required, in view of the dullness of the times. If you do not already grasp the magnitude of our offer, please read it again and "take it in." **Let us hear from you at once.** If you can get a club of thirty persons to join in answering this advertisement you thereby make sure of **the Watch,** as one of the latter is presented to the sender of EACH thirtieth answer or subscription. The thirty subscriptions can all be sent in one letter to us. Each subscriber in such a club of course receives each and every one of the premiums mentioned above.

YOU NEED NOT cut out this advertisement. Simply state that you accept our offer and enclose 50 cents. Save this advertisement as it is our contract with you, which we will carry out in every particular.

Reader, we ask you to favor us with your own immediate response. YOUR particular individual support is worth much to us.

FIRE IN SINKING VALLEY.

he Farm House of Winfield S. Love Totally Destroyed by the Flames.

Winfield S. Love, a brother of our townsan, John G. Love, and an old resident Centre county, at his farm in Sinking alley, three and a half miles from Tyrone, s been particularly unfortunate the past ar in destructive visitations of flames. st October he lost his fine large barn led with the season's crops. Yesterday is dwelling house was totally destroyed y fire.

Mr. Love and his family were all in atendance at church in Tyrone yesterday norning and arrived home about half past welve o'clock. A fire was then built in he cook-stove and it was undoubtedly rom a spark from this fire that the roof as afterwards ignited. About two o'clock ohn Love went up-stairs to lie down when e heard a rattling as of paper in the attic. He proceeded to investigate and on opening the attic door a gust of smoke met im and he realized at once that the house as on fire. All the family were alarmed ut the entire roof was in flames, and as uckets were then of no avail, nothing ould prevent the total destruction of the ouse. All set to work therefore at removing as many as possible of the conents to safety, and in keeping the flames rom spreading to a small house near by. The dwelling was soon consumed and the osy home where they had so short a time efore eaten their dinner was reduced to bed of ashes.

The house was a frame structure 50x26 eet in size. It was spacious, containing ix rooms down stairs and seven rooms up tairs. Mr. Love had improved it only a ew months ago by building an addition nd painting and papering it throughout, he improvements having involved an exense of about $500. The loss on the ouse is $2,500, and on the contents $1,-00. The house was insured for $1,5 0 nd the contents for $500, all in the Waterown company, George C. Waite's Tyrone gency. The flames destroyed the buildng so rapidly that comparatively few of he contents were saved. Four bed room uits, carpets, etc., were burned and beides needing a new house Mr. Love will eed almost entire new furnishings for it.

A remarkable coincidence is that on the st Sunday of August, 1874, at two o'clock n the afternoon—or twenty years ago to he very hour—the house that previously tood upon the same foundation, and was hen occupied by a Mr. Long, was burned o the ground. In its place was erected he building which has succumbed to the ames just twenty years later. When the re burned out Mr. Long he erected a mall temporary home nearby where he esided until his new house was built and hat little structure still stands. Mr. Love nd family will occupy it for the present ntil their new home shall be erected, istory thus repeating itself to a nicety. s soon as the farm work permits and the surance matters shall be adjusted Mr. ove expects to rebuild.

Anthrax Is Killing the Cattle.

Harrisburg, Aug. 28.—An examination to the causes of the death of cattle in e vicinity of Tyrone by Secretary Edge, the State Board of Agriculture, has reulted in the discovery that the disease afflicting them is not pleure-pneumonia, but anthrax, for which there is no remedy. As contact with these animals is dangerous, Secretary Edge suggests that the carcasses be soaked in coal oil and fired.

TO KEEP HER YOUTH, woman must keep her health. All e "beautifiers" in the world won't as much for you as Dr. Pierce's avorite Prescription. With that, u can *see* the good that's done, as ll as feel it. IN ITS FINAL HOURS.

No Business Transacted on the Last Day of the First Session of the 53rd Congress.

Washington, Aug. 28.—Both houses of Congress adjourned sine die promptly at 2 o'clock to-day. The committee of both houses appointed to wait upon the President returned with the announcement that his reply was that he had no further communication to make to Congress. In the Senate a resolution instructing the joint committee on the Ford's Theater disaster to continue its investigation during the recess was agreed to, and the House appointed as its members of the committee Messrs. Maddax, Democrat, of Georgia; Brookshire, Democrat, of Indiana; Piggott, Democrat, of Connecticut; Daniels, Republican, of New York, and Updegraff, Republican, of Iowa. The resignation of Mr. Oates, Democrat, of Alabama, was presented in the House, he having been elected Governor of his State. In the Senate Mr. Quay, Republican, of Pennsylvania, offered a resolution tendering thanks to Vice President Stevenson for the ability, courtesy and impartiality with which he had presided over the Senate, and Mr. Steyenson, in declaring the adjournment, returned thanks for the compliment. Mr. Manderson, Republican, of Nebraska, offered a similar resolution respecting the service of Senator Harris as President protem, and it was also adopted unanimously.

In the House Mr. De Armond, Democrat, of Missouri, endeavored to have passed a resolution to have printed 60,000 copies of the new tariff law with comparisons with the McKinly bill rates, but was cut off by an objection from Mr. Hicks Republican, of Pennsylvania. Mr. Terry, Democrat, of Arkansas, asked the House to consider the Hoar anti-lottery bill passed by the Senate; but the hour of 2 o'clock arrived and Speaker Crisp declared the adjournment.

There were but 20 Senators on the floor and less than 50 members of the House present at the hour of adjournment.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Card of Thanks.

I hereby desire to extend to all of my friends my thanks for the many kindness extended to me during my past illness of over three months from rheumatism, and I especially desire to tell them that but for Sulphur Bitters I should have been suffering still. May you never suffer what I have, is the wish of your friend, B. H. Tayleur.

WILSON SUSTAINS CLEVELAND.

He Likes the Catchings Letter and Says Tariff Reform Will Be Pushed.

Washington, Aug. 28.—Representative Wilson, of West Virginia, chairman of the House Ways and Means Committee, authorized to-day a denial of the statement that he was one of several of the Democratic leaders who urged President Cleveland to sign the tariff bill. "I never believed from the day the bill passed," said Mr. Wilson, "that the President would sign it. I felt certain he would not veto it, but that he would allow it to become a law without his signature. If I occupied his position I should have done precisely what he did. Holding these views, I could not consistently have asked him to affix his name to the bill."

"What do you think of the President's letter to Mr. Catchings?"

"I think it an admirable letter, both in sentiment and phraseology."

"The work of tariff reform," continued Mr. Wilson, impressively, "will be continued by easy gradations and by special reduction from time to time until we have accomplished our purpose. This work will be performed, however, in such a manner as neither to disturb the business conditions of the country nor to affect either the employer or employe. I shall elaborate this point in a speech which I propose making at the convention in my district to-morrow.

Miss Lulu Smith is visiting her friend, Mrs. Charles Trout, in Tyrone.

when these conditions are caused by constipation; and constipation is the most frequent cause of most of them.

One of the most important things for everybody to learn is that constipation causes more than half the sickness in the world, especially in women; and it can all be prevented. They who call the cure for constipation a cure-all, are only half-wrong after all.

Write to B. F. Allen Company, 365 Canal Street, New York, for a little book on CONSTIPATION (its causes consequences and correction); sent free. If you are not within reach of a druggist, the pills will be sent by mail, 25 cents a box.

A Vision of WONDERLAND!

The Little Brownies, those mischevious but kindly children immortalized in nursery tales, have been recently reported as taking a tour of the wild and picturesque scenery of America. The idea was long delayed, and undoubtedly came to them through a chance examination of the **most wonderful and beautiful publication of the age, the magnificent pictographic scenic serial,** Entitled:

Glimpses of America,

Which the REPUBLICAN is now distributing among its patrons.

It is a sad commentary upon popular taste that Americans know less about the scenery of their own country than that of European lands, probably because travel in the far West has not been attended with such comforts as journeys through the old countries. But no reason is longer available to excuse ignorance of the THE INCOMPARABLE, THE IMPRESSIVE, THE TRULY MARVELOUS SCENERY of our wondrously diversified country, because **"Glimpses of America"** is a photographic album, comprising the grandest pictures of the most sublime objects that the human ever beheld.

A SERIOUS ACCIDENT.

A Crowded Street Car Becomes Unmanageable Near Orange, N. J.

Newark, N. J., August 26.—A serious trolley car accident occurred at 5 o'clock this evening on the Suburban Traction company's new line between Orange and Eagle Rock, in which fifty persons were more or less seriously injured. The car, which contained about eighty people, while descending a steep grade on the side of the mountain just east of Mountain avenue became unmanageable and dashed into a curve at a terrific rate of speed, breaking the flange of one of the forward wheels. The car left the track and capsized down a slight embankment. Broken glass flew in all directions and the excited occupants were thrown into a confused mass. Order was finally restored and the injured were removed in ambulances to the Memorial hospital. The following are names of the more seriously injured.

John Lloyd, aged 4 years, had arm crushed completely off at the elbow and amputation was found to be necessary.

Mrs. Frank Davis, of Bloomfield, arm broke and head injured.

Willie Coyle, aged 6 years, of Orange, three ribs broken, and it is feared he will die,

Many persons who were injured by the overturning of the car or by the flying glass had their wounds dressed at the hospital and went their way, leaving no names. It is stated that the brakes on the car failed to work and the motorman losing his head, did not turn on the reverse current which would have stopped the car.

Why Was This?

The wife of a young man who yielded to liquor went back to her father's home. The husband remorsefully wrote to her to return, but the letter was delayed for a day, and when she arrived she found him a corose. Thinking she had abandoned him he shot himself. A young man arrested for embezzlement hanged himself. When the reporter went with the news of it to the brothers of the young man he found them preparing to send to the press a letter from the firm which ordered the arrest, saying that it had occurred through a mistake, that an examination of the books showed that there was no embezzlement.

Was this fate? There is no such thing. There is natural law which once bore that name. It operated in both cases undoubtedly, but to trace the effects back to their ultimate causes would be as hopeless a task as to explore the mysteries which the ancients classed under the head of fate. Shall we say that providence was in operation also? In that event it would be reasonable to ask what its field was. But nobody can answer that. There is no discoverable line of difference between law and providence in these sorrowful instances. As to the purpose in them, all sorts of things can be imagined, but nothing proved.

There is nothing to do but fall back upon faith that both deaths were for the best, or admit that we are all in the grip of a power to which good and bad alike are indifferent, which goes its way unthinkingly and unpityingly. Just here thousands are stumped. Looking into themselves they feel that there must be some source of their own compassion. Looking upon the lives and deaths of others they wonder why this compassion is not shown. After searching for a way out of the difficulty until heart and brain are weary they give it up, their last word: "I don't know." It is a dreaded word. Only those who have been driven to it know how much it is dreaded.

Gregg Post Resolutions.

WHEREAS, It has pleased Almighty God, our Heavenly Father, to remove from our midst Col. D. S. Keller, a prominent member of the Grand Army of the Republic, a charter member of this Post, No. 95, and one who has filled, with credit to himself and advantage to the order, every position from commander to private. Therefore,

Resolved, That, while we bow with submission to the Divine will, we desire to record our profound regret at parting with a comrade who, in every relation of life, so well sustained the character of a brave and true soldier; not only in camp and on the battlefield in the service of his country, but also in civil life as a useful and public-spirited citizen, and a good soldier of Jesus Christ. Col. Keller was faithful in service, patient and uncomplaining in suffering.

Resolved, That we urge on the part of every member of this Post a like faithful service under the grand Captain of our Salvation, that when to each of us comes the final discharge from this conflict, we may be received into the rest prepared for all who have "fought the good fight."

Resolved, That these resolutions be entered on the minutes of the Post, and inserted in the several county papers, and that a copy be sent to the family of the deceased,

JAMES HARRIS,
GEO. A BAYARD,
W. H. TAYLOR, } Com.

Sold at Auction.

St. Louis, Aug. 26.—A special from Guthrie, Oklahoma, says William Cardwell, an erstwhile Cherokee Strip boomer, had become hard up and some days ago announced that he was going to sell his wife to the highest bidder. The sale came off yesterday at Cardwell's cabin. There were half a dozen bidders present and as the woman was buxom and good looking bidding was spirited. John Insley, a grass-widower, of this city, secured the woman, bidding $100 in cash, a colt, a horse and a lot of household furniture. The wife seemed to be wholly unconcerned about the matter and departed with Insley smilingly, after he had turned over the amount of his bid. The pair left for Texas in a covered wagon.

At Mount Gretna.

Mount Gretna, Pa., August 23.—The immense crowds that assembled in the park to-day presented a rare sight. Every train brought hosts of spectators to the grounds and this morning 2,500 people arrived on the different trains alone, besides the large number who came in vehicles and on foot will increase the number considerable. Various estimates have been made and it is claimed that between 10,000 and 15,000 persons were present to-day. Representatives of the Fourteenth, Fifth and Tenth regiment rifle teams have arrived and occupy quarters near the range. The contests will be waged next week, beginning on Tuesday. To-morrow is democratic and populist day, and prominent speakers will be present to represent their respective parties. Democratic State Chairman Stranahan will be among the speakers, besides other prominent men. Governor Pattison, who was announced to be present did not show up.

Worn and Wan and Weak and Weary

Hollow women, worn and weary, with wan faces and so indescribably weak. Those distressing, dragging-down pains, and that constant weakness and wornness, and weariness can be cured. For all such sufferers, Dr. Pierce's Favorite Prescription is a panacea of inestimable value. As an invigorating tonic, it imparts strength to the whole system. For "overworked," "worn-out," debilitated teachers, dress-makers, seamstresses, "shoppers" housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic. As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and invaluable in allaying and subduing nervous excitability, exhaustion, prostration, hysteria, spasms and other distressing nervous symptoms, commonly attendant upon functional and organic disease. It induces refreshing sleep and relieves mental anxiety and despondency.

Where is Gardner?

Philadelphia, Aug. 23.—A rumor was circulated last evening that Henry A. Gardner, the defaulting cashier of the Altoona bank, who disappeared recently with over $100,000 of the bank's funds, was in this city. It was said that he had been seen here, and that the news of his whereabouts was made known to the Altoona police, through a telegram sent from this city by some unknown party, who was also kind enough to volunteer the information that he was here awaiting the recovery of a Mrs. Gordon, who was in the hospital.

Superintendent Linden was communicated with, but failed to locate Gardner and could not discover any woman named Gordon in any of the hospitals. The Superintendent scouts the idea that Gardner has been in this city since his theft and believes with the United States authorities that the missing cashier is on his way to either China or Japan. This theory is strengthened by the fact that a man answering Gardner's description was seen a few days ago in Portland, Oregon.

Married the Mulatto.

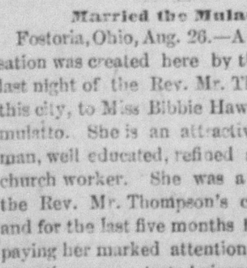
Fostoria, Ohio, Aug. 26.—A decided sensation was created here by the marriage last night of the Rev. Mr. Thompson, of this city, to Miss Bibbie Hawk, who is a mulatto. She is an attractive young woman, well educated, refined and a great church worker. She was a member of the Rev. Mr. Thompson's congregation, and for the last five months he has been paying her marked attention. His congregation remonstrated vigorously and finally, a few weeks ago, he was given an indefinite leave of absence and the church was closed.

25,000 Men Idle.

Fall River, Mass., Aug 23.—The great textile strike here developed to-day into a lockout, and as a result 25,000 operatives in the city of Fall River will be idle. Notices were posted in the mills to-day that to-night every mill operated by members of the Manufacturers' association will shut down indefinitely. These mills include every establishment engaged in the manufacture of print cloth, and the shutdown throws 22,645 men and women out of employment. There are at present about 2,500 who have voluntarily quit work, which swells the total to about 25,000 idle operatives.

Cost of the Encampment.

The cost of the Gettysburg encampment was $211,000, made up as follows: Pay roll, $140,000; transportation, $40,000; subsistence, $16,000; horse hire and quartermasters' stores, $15,000. This, with the expenditures for rifle practice, armory fund, uniform fund and naval batallion, aggregating $170,000, exhausts the approparition of $320,000.



"Those Female Ills can be cured. I suffered long and severely. *Lydia E. Pinkham's* Vegetable Compound cured me. I advise any woman who suffers with any form of female weakness to try it."—Mrs. WALTER WILCOX, 736 West St., Philadelphia, Pa.

SEPTEMBER STORMS.

Foster Predicts Great Extreme of Temperature Next Month.

My last bulletin gave forecasts of the storm wave to cross the continent from the 27th to the 31st and the next will reach the Pacific coast about Sept. 1st, cross the western mountains by the close of the 2d, the great central valleys from the third to the 5th, and the eastern states about the 6th. This disturbance will be above the average in force and will develop its greatest energies west of the Mississippi river.

The force of the storms, often mentioned in these bulletins, often results in extreme heat or cold, heavy rains or the reverse—evaporation and dryness—winds, or any extreme condition of the atmosphere and weather. It is the force of the storm that causes the extremes of weather to be more noticeable. Any weather extreme is important to the human race and usually is of a disagreeable character except heat in winter and cold in summer.

The first week in September will be noted for extremes of temperature, heavy local rains and severe droughts in limited localities, tornadoes and other dangerous storms, earthquakes in countries where they are common, and extremely high tides.

The warm wave will cross the western mountains about Sept. 1, the great central valleys about the 3rd and the eastern states about the 5th. The cool wave will cross the western mountains about the 4th, the great central valleys about the 6th and the eastern states about the 8th.

In 1886 I published predictions of a severe drought for that year, and early in 1894 published predictions of a severe drought for this year. The predictions were based on the same causes and the droughts have covered practically the same parts of the United States.

I have not heretofore been financially able to extend this wonderful discovery to the long and difficult calculations necessary to make it of practical utility for all places, for every month and for every year, but these calculations have been in progress since March 1, and will be completed during the first months of 1895.

I could quickly convince the national weather bureau of the great importance of this discovery, and with their vast appliances they could quickly work out the problem and make it of great public utility. But in doing so I would lose all my work that has led up to the discovery. Therefore readers of these bulletins must be a little patient, give me reasonable time, and then, through the public press that is supporting me in this work, they shall have the benefits of my efforts in delving for nature's secrets.

Patronize Home Industries.

Canton, O., August 7, 1864.

EDITOR REPOSITORY: Among the many questions effecting the well being of any city town or village, none is of more vital importance than that, of where its citizens purchase their goods. The prosperity of any community, depends in a great measure, upon the manner in which the citizen answers that question. We can conceive of no greater ingratitude than that of a man earning his wages, or making his wealth in the place he lives, moves and has his being in, and then buying the bulk of his goods in another place. It's like a child slapping his parent's face. Next to such a man, is that one, who endeavors to break up the harmonious relationship existing between the citizen and merchant or between merchant and merchant.

The cause of these remarks is occasioned by our having seen a card, alleged to have come from the Elgin National Watch Company, which they had printed for a jeweler, as well as the offer which this company is alleged to make the jewelers of the country to print their business cards, envelopes, etc., at a much lower price than the resident job printer can do the same for.

The principle involved in this matter is a bad one, and we hope the craft in the future will do as they have done in the past, and that is, give all their printing to the resident printer.

Let the Elgin Company, if they desire to get the good will of their trade, select some other method than that of competing for the printers business. Let them take some kind of steps that will keep their goods out of the illegitimate channels that they are in to-day, and doubtless the craft will appreciate this more than anything else they can do.

Suppose every manufacturer should adopt the same principle of the Elgin Company, and offer to supply the trade with printed matter, where, in the name of common sense, would the business of the printer be? Or, if manufacturers should adopt the same method with other goods than those of the printer, cannot anyone see the result that would ensue?

Another side to the question is not to be overlooked and that is, that the jeweler who sees fit to accept this offer for printed matter in order to save a small amount of money must not complain if the printer, when he wants a watch or jewelry, goes out of town for the same. What's sauce for the goose ought to be sauce for the gander.

A safe rule for all to follow, whether jeweler or not, is to leave in your town all the money you can. This will stimulate and make business good and is setting the example that every merchant should adopt himself, if he desires patronage. Leave the money you earn or make in the town where you do business.

Yours Truly,
NEWTON DEXTER.

All for a Barley Corn.

LaFontaine in one of his fables, tells of a barnyard fowl that scratched up a gem, while scratching for corn. Not knowing its value, he gave it to a stone-cutter for a barley corn. Thus do many persons throw away the priceless pearl of health. A "trifling" cough is neglected, then comes Consumption, then death. Stay the cough, or look out for a coffin. Dr. Pierce's Golden Medical Discovery will cure catarrh in the head, bronchial or throat affections or lung scrofula (commonly known as the consumption of the lungs). If taken in time, and given a fair trial, it will cure, or the money paid for it will be refunded. It is the only guaranteed cure.

Locals in a Line.

—A new 200-horse power boiler is to be added to the equipment of the gas and steam heat plant in this place.

—Did you see or feel that lovely step in the pavement between Samuel Lewins and Sechlers, on East Linn street? So much for the borough changing the grades every few weeks.

—The democratic judicial conferrees of this district will meet in Tyrone on Friday, August 31st, and formally place in nomination C. M. Bower for President Judge of the district of Huntingdon and Centre counties.

—At 10 o'clock on Wednesday evening George H. Noll died at his home at the mine bank, near Bellefonte. He was unmarried and aged about 45 years. The funeral will take place on Saturday morning at 9 o'clock from his late home.

—It is rumored that Malcolm Laurie will try his luck in the wheel races at Hunter's Park September 1st, We hope he will regain some of his lost glory on the track. Although the time from now on is very short to practice, yet we predict some good work from that quarter.

—A contemporary furnishes the following exhibit of the farmer's share in four gallons of whiskey: From a bushel of corn a dealer gets four gallons of whiskey, which retails for $16. Of this the government gets $3.60, the retailer $7, the distiller $4, the railroad $1, and the farmer who raised the corn 40cts.

—Wednesday morning Sheriff Condo took William Young to the asylum at Danville for treatment. Young was convicted of burglary one year ago and was sentenced to eighteen months in the penitentiary. During his incarceration he showed signs of insanity, and grew so violent that his removal to the asylum was necessary.

—Pride for native place should urge us to see the wheel races on Veteran's picnic day at Hunter's park, under the auspices of Centre county veterans and Bellefonte wheelmen. Bellefonte will try for the championship of Centre, Clearfield, Clinton and Blair counties, and in the Centre county championship we can see a certain Bellefonte boy sporting the handsome medal.

—We had the pleasure of listening to an excellent discourse on Odd Fellowship, delivered by Rev. Noll, of Bellefonte, at the picnic near Rebersburg last Saturday. The speaker brought out the good points of secret societies in general and the independent Order of Odd Fellows in particular, by clear and well-balanced arguments, tending to convince the most sceptic of the beneficial influence of such organizations. —Millheim *Journal*.

—It now seems an assured fact that the furnace of the Valentine Iron company will be put in blast next week, more than likely on Monday morning. The company have now on hand a large supply of coke, ore and stone and feel justified in once again making the attempt to operate their large plant, which was so unceremoniously and suddenly stopped by the coal and coke strike last spring. The proposed resumption is indeed cheering news.

—A little boy wrote an essay on the "Life of Man," which ran as follows: "A man's life naturally divides into three distinct parts—the first, when he is planning and contriving all kinds of villainy and rascality. That is the period of youth and innocence. In the second he is found putting in practice all the villainy and rascality he has contrived. This is the flower of manhood and prime of life. The third and last period is that when he is making his soul and preparing for another world. That is the period of dotage.

A YOUNG GIRL'S FORTUNE.

AN INTERESTING SKETCH.

Nothing appeals so strongly to a mother's affection as her daughter just budding into womanhood. Following is an instance: "Our daughter, Blanche, now 15 years of age, had been terribly afflicted with nervousness, and had lost the entire use of her right arm. She was in such a condition that we had to keep her from school and abandon her music lessons. In fact, we feared St. Vitus dance, and are positive but for an invaluable remedy she would have had that terrible affliction. We had employed physicians, but she received no benefit from them. The first of last August she weighed but 75 pounds, and although she has taken only three bottles of Nervine she now weighs 106 pounds; her nervousness and symptoms of St. Vitus dance are entirely gone, she attends school regularly, and studies with comfort and ease. She has recovered complete use of her arm, her appetite is splendid, and no money could procure for our daughter the health Dr. Miles' Nervine has brought her.

When my brother recommended the remedy I had no faith in patent medicines, and would not listen to him, but as a last resort he sent us a bottle, we began giving it to Blanche, and the effect was almost immediate."—Mrs. R. R. Bullock, Brighton, N. Y.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from opiates or dangerous drugs.

WHERE IS GARDNER?

Assistant District Attorney Griffith Says He Is Bound for China or Japan.

A Pittsburg telegram last night says: "Harry A. Gardner, the defaulting cashier of the Second National bank of Altoona, is en route for China or Japan and he has with him the sum of $100,000 in bank notes of large and small denominations. So spoke Samuel B. Griffith, assistant district attorney, when asked to-day regarding the truth of a rumor that Gardner had been in this city Tuesday. 'Gardner was in Portland, Ore., a few days ago,' said Mr. Griffith, 'and he has likely left the country by this time. A week ago last Monday Gardner learned that Bank Examiner Miller was going to investigate his accounts. Gardner at once began preparations for a flight and left that afternoon, taking with him every dollar of the bank's money he could carry. The capital stock of the bank is $100,000, and the defalcation is in excess of that sum.'"

A prominent gentleman engaged in business in this city, said last night that he had been informed by another Altoonian that the latter had received a telegram from a friend in Philadelphia yesterday, who is personally acquainted with Harry A. Gardner, stating that he had met the absconding cashier and had a conversation with him at that place on Wednesday. The three persons through whom the story comes are of unquestioned veracity and, while there may be a mistake, it is certain that there is no attempt to spread a false rumor. It is quite probable that Gardner is not outside of the state.

Who Will be There.

The Central Pennsylvania Patrons' of Husbandry picnic and exhibition will be held, as has already been announced, at Grange Park, near Centre Hall, during the week of September 17th to 22nd instant.

The management are actively engaged in fitting up the park and getting ready for the grand reunion of the farmers of Centre county and Central Pennsylvania. Unusual attractions will be presented. Col. J. H. Brigham, of Ohio, master of the national grange. Hon. Mortimer Whitehead, of New Jersey, past lecturer of the national grange. Hon. J. T. Ailman, lecturer of the Pennsylvania state grange, Dr. Warren, state ornithologist, Dr. Rothrock, of the state forrestry commission, Profs. Walters and Frear, of the Penna. State College, and other eminent gentlemen will be there to address the people.

Dr. Hollingsworth, V. S., the celebrated Horse Tamer, will be in attendance and give entertainments daily. There will be a large display of elegant stock, machinery and implements. Entertaining amusements, as well as fine music, both vocal and instrumental, will be provided.

A Large Barn Burned.

The Lock Haven *Democrat* says that on Tuesday evening about 9 o'clock fire was discovered in the barn of Albert Gummo, who resides on the old Perry farm, about a mile west of Furst's mill in Nittany valley. Spontaneous combustion is supposed to be the cause of the fire. Shortly before the fire was noticed, a son of Mr. Gummo heard an explosion and ran to the house and informed his parents. A few minutes afterwards the barn was ablaze. The farmers in the neighborhood assisted in getting the horses and cows out of the burning structure, but the flames gained such headway that the barn, wagonshed corncrib, the season's crops, farm implements and four calves were burned. The buildings were new, having been erected two years ago. The loss to Mr. Gummo is a serious one, and is estimated between $3,500 and $4,000. He had $2,000 insurance in the O'Conner & McCormick agency.

Veterans' Picnic.

The Veteran Club of Centre county and their friends will hold their annual reunion and basket picnic at Hunter's Park, on the line of the Bellefonte Central Railroad, near Bellefonte, on Saturday, September 1st, 1894. All who desire a pleasant outing for the day are cordially invited to attend. In order to avoid the National Encampment of the G. A. R., at Pittsburg, the picnic has been made earlier than usual.

The large posters describe it thus: Entertainment—Basket picnic; bring your provisions with you. More than the usual variety of fine music. Distinguished visitors to address the crowd.

Transportation—One fare for the round trip on the Tyrone division and the P. & E. division of the Pennsylvania railroad and of the Central Railroad of Pennsylvania; special train over the Pennsvalley road to Coburn in the evening. Regular trains will carry all others home the same evening.

September Weather.

The weather department has issued the summary of September weather for the last twenty-three years. From it some estimate may be made of what might happen next month, although the summary for August proved a poor criterion to go by. The forecast is as follows:

Mean or normal temperature, 65 degrees; the warmest day was that of 1881, with an average of 75 degrees; the coldest month was that of 1871, with an average of 59 degrees; the highest temperature was 103 degrees on 6, 1881; the lowest temperature was 35 degrees on 25, 1879; average date on which first "killing" frost occurred in autumn October 21; average precipitation for the month, 2.75 inches; average number of days with .01 of an inch or more, 10; the greatest monthly precipitation was 7.35 inches in 1876; the least was 0.76 inches in 1881; the greatest amount of precipitation recorded in any twenty-four consecutive hours was 3.38 inches on 17, 1876; average number of clear days, 9; partly cloudy days, 13; cloudy days, 8; the prevailing wind has been from the northwest; the highest velocity of the wind was 38 miles from the southwest and west on 3 and 25, 1891 and 1892.

Gents Dinner Party.

The residence of Rev. J. A. Woodcock, on East Linn street, was the scene of a most pleasant and social affair on Thursday evening in the guise of a gents' dinner party given by Mr. Lee B. Woodcock, in honor of his friend, Mr. Frederick Sallade, of Philadelphia. The table was elegantly appointed and spread for ten people. And the appointment's of the table were only rivaled in the elegance of the feast spread before the young gentlemen; or rather served to them, as the dinner was in courses and was placed before the guests, in the right place, at the right time, by that chief of waiters, Mr. Abe Jackson. It was the general opinion of the young gentlemen that never were viands concocted to taste so delicious, or to be served in so attractive a style. But time came when the inner man was satisfied and then it was that delicious coffee and fragrant Havanas were served, and with the puffs of smoke, came many witty jokes and a good time generally. Later in the evening the guests all repaired to the parlor and enjoyed themselves with music. One feature of the evening which must not be omitted was the rehearsal by John Blanchard of his part of the opera "Paul Jones." It was eleven o'clock when the young men finally bid their host good night.

Death of Rev. J. Max Lantz.

A dispatch from Lewistown states that Rev. J. Max Lantz, presiding elder of the Juniata district, Menthodist Episcopal church, died at his home in that town at 6.30 on Tuesday night. He was aged about 54 years. He became ill at the Newton Hamilton campmeeting, of which he had charge, and was removed to his home on Tuesday.

Rev. J. Max Lantz was a native of Blair county. He was converted at the age of 21 years and was admitted to the itineracy in 1863. He was admitted to full membership in the East Baltimore conference and filled the following appointments: Lewistown circuit, 1863; Gettysburg, 1864; Strewsbury, 1865; Wrightsville, 1866-68; Mount Holly, 1869 71; Mechanicsburg, 1872-74; Williamsport, Third Street, 1875-77; King street, Chambersburg, six months; St. Paul's, Danville, 1878-81; Lock Haven, 1872-73; York, First church, 1884-86; Lewistown, 1887-90. In 1892 he was made presding elder of the Juniata district, a position he filled with credit to himself and the church.

A Wise Young Woman.

Young Adolphus Fitzwilliam, he loved a fair maid,
But to ask her to marry him he was afraid,
Because of catarrh, which she had very bad;
So much so that often the youth was quite glad
To omit, at the parting, the kiss of the lover.
The reason of this she set out to discover.
"Catarrh makes me loathsome. It's fatal to love.
O, darling Adolphus, by all that's above,
I vow I'll not lose thee if something there is
To drive out catarrh and to sweeten a kiss.

So this wise young woman began searching for a cure, and good luck attended her. She found Dr. Sage's Catarrh Remedy, at the drug store, and felt convinced that a preparation which the proprietors had such confidence in that they were willing to offer to pay $500 for a case they cannot cure, must be worth trying. She bought it. She tried it. It cured her. And when Adolphus kissed her at the altar last week, her kiss was as sweet and pure as roses in June.

Girls a word of advice: If you want a lover to stay a lover, you must get rid of catarrh. Do as this sensible girl did, and get the only sure remedy for this disgusting and dangerous disease—Dr Sage's Catarrh Remedy.

Death of Rev. L. W. Berry.

Rev. L. W. Berry, aged 57 years, died suddenly of heart disease Wednesday night, August 15th, at a hospital in Warren, where he had been a patient for some time. He was formerly a Methodist minister of the Central Pennsylvania conference, but on account of ill health had not been engaged in regular ministerial work for some time. Those surviving him are his wife and four children: Misses May, Lida and Blanche, of Tyrone, and son Guy, of Bradford. George A. Berry, a prominent attorney of Bradford, and Mrs. Annie Beach, of Oakland, Cal., are the only brother and sister living. The remains were interred at Lemont, this county, in the family lot, Saturday, August 18.

New Trial Granted.

A new trial was granted on Tuesday by Judge Saddler in the case of Tyrone Manufacturing Co. vs. James Cross. The case has been pending in the courts of Centre county since 1884, was tried four times in our common pleas court and twice in the Supreme court, and this granting of a new trial places the contestants in exactly the same position they were when they began—minus the boodle they put into it.

—Mr. E. C. Humes is beautifying the surroundings of his residence by having the streets sodded similar to that further out on Allegheny street.

MILLER KILLED HIMSELF.

The Coroner's Jury Have Decided That He Fired the Shot Which Ended His Life.

Not so many spectators as usually congregate on such occasions were present yesterday morning at Alderman Smith's office, where the jury empannelled to investigate the cause of the death of National Bank Examiner Miller was to meet and render a verdict before its final adjournment. The most notable man in the office was Deputy Attorney General James A Stranahan, the representative of the dead man's relatives and friends. After the jurymen had all arrived, Foreman Dively asked Mr. Stranahan whether he had any further information to offer. The attorney general arose and with becoming dignity and much feeling delivered the following brief address.

"I have just returned from Mercer, the home of Mr. Miller's friends, and though I made diligent inquiry, I have nothing to say that will throw any further light on the matter. I can only say that it is the same unexplainable mystery to his friends that it is to me and you. They are loth to believe in the theory of suicide, but I assure you that no suspicion, not in the slightest degree, is entertained by them attaching to Mr. Levan or any other person. They and I appreciate Mr. Leyan's delicate position in having been the only person in the bank at the time, but they are assured of his personal character and reputation for uprightness and they have publicly expressed it in a letter I have from Hon. S. H. Miller, the only living brother of the deceased examiner. I have conveyed this to Mr. Levan privately, but I want to say it publicly, I hope to his consolation, as I see no reason under the testimony adduced to the hearing nor from the facts and circumstances of this affair that could in any way inculpate him and your verdict should completely and and puolicly exonerate him, as I have known the deceased all his life, and a better man never lived. I have some feeling in performing this sad duty and am still loth to believe that he took his own life. I should perfer to believe that it was the result of an accident, and yet the unfortunate occurrence is shrouded in a mystery that may never be revealed I should be pleased if the jury would see sufficient evidence upon which to base a verdict of suicide, but attribute his death to an accident or some cause unknown to them. In behalf of S. H. Miller and her sisters, I thank the people of Altoona for their kindness to the dead and their tributes to his honest integrity."

Mr. Stranahan then requested that a copy of the letter found in the pocket of the deceased and which was forwarded to Washington, should be attached to the verdict as evidence of the high opinion the dead examiner entertained for Mr. Levan and the directors of the bank, and the pleasant relations existing between him and them.

The jury then retired to the office of A. V. Dively, esq., where they spent a half hour in consultation and finally agreed on the following verdict.

"The death of William Miller was caused by a bullet wound in the head, produced by a pistol shot fired by the deceased, but, whether accidentally done or otherwise, it is the jury unknown, which death occurred on the 17th day of August, 1894, at 1.05 o'clock p. m. in the counting room of the Second National bank building, in Altoona, in said county."—Altoona *Times*

Now For Gas Or Oil.

Representatives of the Salt Lick Gas and Oil Company were on the leased lands of the company at Salt Lick yesterday and selected the site for a well which is to be drilled at once near Karthaus. The contract for drilling the well was let to Messrs Grove Brothers, of Tionesta, Warren county, who are practical operators in that line of thirty years' experience. The drillers were pleased with the surface indication and are so confident of finding gas and probably oil that they took a considerable block of the stock of the company.

The drilling will begin at once and operations will be continued day and night until a depth of 2,000 feet is reached. If oil or gas is not struck at that depth the indications will then determine whether the drill will go deeper.

The place where the first test well will be put down is near Karthaus.

Going to Buy a Watch?

If so, buy one that cannot be stolen. The only thief-proof Watches are those with

Non-pull-out BOWS.

Here's the Idea: The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendent, so that it cannot be pulled or twisted off.

To be sure of getting a Non-pull-out, see that the case is stamped with this trade mark. It cannot be had with any other kind.

Send a postal for a watch case opener to the famous Boss Filled Case makers.

Keystone Watch Case Co.,
PHILADELPHIA.

A SERIOUS CONDITION.

What Tyrone's Board of Health Discovers.

Tyone's Board of Health set out to investigate the diseased cattle story and, according to Saturday's *Herald* this is what they found:

To fully investigate the statement that a loathsome disease was working dire destruction among hundreds of cattle confined in mountain enclosures for the summer, Health Officer Wands and Chief Snyder went to Van Scoyoc's station by rail this morning and began a systematic inspection.

A son of Mr. Frantz who lives near VanScoyoc and herds the cattle confined in a reservation at the herd of Decker run, pilotted the officers down the mountain and told what he knew.

The trio started in at Elder spring where they found a carcass within two feet of water. Proceeding a short distance further down they came across another dead animal near the run. The stench from the carcasses was almost unbearable.

Young Frantz told the officers that he knew of eight just sights as they had witnessed. Fifty cattle were under his care and fully one-half of them were afflicted with the disease. To prove his statement the boy conducted the officers to where the live cattle were pasturing. The animals that were contaminated followed the ones not yet afflicted, emitting a sickening smell that could be detected three or four hundred yards away. They were bloated and bleeding at the nose, and mingle with the other stock until they fall and die.

The course of Decker run was followed until the dam of the East Tyrone Water Co. was reached, but no more carcasses were found very close to the stream. Elder spring is in the enclosure named, and the spring is the head or source of the run from which the cattle drink. In case of rain the officers say all the filth from the decomposed animals will be washed into the stream and great fatality might and probably would follow the use of the water.

The extent of the contagion and fatality has not been exaggerated, and speedy measures should and doubtless will at once be taken to prevent further trouble.

Officers Snyder and Wands purpose following Sink run to its head and examining the main source of Tyrone's water supply. The statement made to them by Archie Dunlap that there are several dead animals near the run needs investigation. That a freshet would contaminate the water there is not a particle of doubt and the health of the people is a paramount consideration with the health authorities, who will see to it that proper sanitation and regard for human life receive the consideration which the emergency demands.

—Have you noticed those nobby band instruments displayed in the window of F. P. Blair & Coe. jewelry store? They were manufactured by the famous Henry Disston Co., of Williamsport, and are the prizes which will be given for the first and second best playing done in the band contest at the Tournament at Hecla park next Thursday.

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Corespondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—"Warren" has a new watch and he wants everybody to know it.

—Frank Wallace is about commencing the brick work of the new armory on Lamb and Spring streets.

—Take the Sea Shore Excursion via Pennsylvania Railroad on Thursday September 6th. Rate for round trip $5.75.

—Handsome lithograph posters have been put up announcing the bicycle races at Hunter's Park on Saturday. Don't fail to attend.

—The Williamsport public schools opened on Monday and every scholar who could not present a vaccination certificate was sent home.

—From the appearance of the crowd constantly surrounding the court house, one would almost think there was a circus on exhibition inside.

—On September 1st, Saturday next, the ladies of the United Brethren church will hold an ice cream festival on the lawn in Bush's Addition. All are invited to attend.

—The last opportunity for persons desiring to visit the sea Shore this season at the low rate of $5.75 will be given by the Pennsylvania Railroad Co. on Thursday September 6th. Dont fail to take advantage of it.

—At least there is one member of the Bellefonte Board of Trade who recognizes the wisdom of the piece in the DAILY NEWS on Monday and has gone right to work to see what there is in the suggestion for Bellefonte.

—Mr. and Mrs. John Dunlap are rejoicing over the arrival of a new girl at their home, and the little stranger has come to stay. That is the reason that John can cry court so stentoriously the past two days.

—Saturday is Labor day and in consequence thereof all the banks in Bellefonte will be closed. Therefore if you have any paper falling due on September 1st, it must be attended to on Friday, the last day of August.

—Summer is passing to its conclusion slowly, but steadily and surely, six weeks of the season remaining to be passed. It is hoped that what remains of the period will not be marked by the blistering heat which characterized that which has gone.

—A certain property owner on Allegheny street, whose grapes the boys persist in stealing, has loaded up an old blunderbuss and intends to go gunning for the thieves. So, boys; you had better give all grape arbors a wide berth in the future.

—On Friday evening while tying his dog in the fruit orchard, Mr. Robert McCalmont had his hand severly bitten by the animal who turned on him. The bite is a serious one and might cause considerable trouble, though it is to be hoped not.

—Another cheap excursion, via the Pennsylvania railroad, to the seashore on September 6th is announced. All persons who have not yet visited those delightful resorts this season will want to take advantage of this opportunity, as it will likely be the last one for this season.

—Nearly 600 performers will take part in the great and magnificent pyrotechnic spectacle "The Siege of Vicksburg," to be presented in Pittsburg, Pa., for ten nights commencing September 1st. The new grand stand built for this special exhibit seats over 10,000 spectators comfortably.

—The popularity of the Pennsylvania Railroad Sea Shore Excursion this season has induced the Company to run a finale on Thursday September 6th taking in all either Atlantic City, Cape May, Sea Isle City, Ocean City, Anglesea or Wildwood Rate for round trip $5.75 with stop off in Philadelphia returning within limit of 10 days.

—The old soldiers of Centre county are anticipating quite a large gathering at their annual picnic at Hunter's Park next Saturday. And it is likely that the crowd will be the largest that has ever been in attendance. The bicycle races in the afternoon will be a drawing feature for hundreds; and it is unquestioned that they will be well worth seeing.

—On Sunday George T. Bush just rode one hundred miles on his bicycle in ten and one-half hours. He made a trip to Tyrone and back, then took a rest, after which he rode various directions out in the country until he had covered the even one hundred miles. This is the biggest day's cycling George has ever done and, in consequence, he feels a little sore to-day.

—The opera season in Bellefonte will open next Wednesday evening, September 5th, when the celebrated actress Miss Jane Coombs, will appear in her marvelous creation, "Juliet," in Shakespeare's sublime love tragedy "Romeo and Juliet." Although this is a play old on the stage, it has never yet been given in Bellefonte by so celebrated an actress, and the opera house should be crowded on the opening night.

DOINGS IN COURT.

A Whole Batch of Trivial Cases Disposed of.

When court convened on Monday afternoon the first case taken up was that of the Commonwealth against Margaret Sullivan, of Powelton, for assault and battery. District Attorney Singer conducted the case for the commonwealth and the court appointed W. E. Gray to defend the prisoner. Several witnesses were examined but the evidence was very flimsy and the jury returned a verdict of not guilty. Hugh O'Donnell, the prosecutor, was sentenced to pay two-thirds the cost and Mrs. Sullivan the other one-third.

The next case was Com. vs O. Mason, assault and battery. Ira C. Mitchell, Esq., conducted the defense. The verdict of the jury was guilty and the sentence was $25 fine and costs of prosecution.

The next case was another one for assault and battery, the Com. vs E. F. Barner, of Huston township. J. C. Meyer conducted the defense. Found guilty and sentenced to pay a fine of $25, costs of prosecution and stand committed until the sentence was complied with.

Com. vs Charles H. Yunker, assault and battery, John M. Dale, Esq., for the defense. Found guilty and sentenced to $20 fine and costs of prosecution.

Com vs Louis Lose, assault and battery, Ed. Foster, prosecutor. W. E. Reeder conducted the defense and J. C. Meyer assisted District Attorney Singer in the prosecution. Both men are hack drivers and this case grew out of an altercation that occurred at the P. P. R. passenger depot on August 10th, when both parties endeavored to get in to one certain place with their hack. Although Foster was on the ground first Lose droye behind his rig and got in the place with the result that Foster backed into him. Then Lose struck Foster with the butt of his whip. The case, which seemed a clear one against Lose, was not completed when court adjourned until Tuesday morring.

TUESDAY MORNING SESSION.

At the convening of court the assault and battery case against Louis Lose was taken up and completed, the jury finding him guilty as indicted.

Com. vs L. H. Crystal, f. and b., guilty and the usual sentence imposed,

Com. vs Aaron Mallory, adultery, Mrs. Doughtery prosecutrix. After hearing part of the evidence the court quashed the proceedings and instructed the jury to return a verdict of not guilty, and county to pay the costs.

Com. vs William Mayhew, f. and b., defendant failed to appear and his recognizance was forfeited.

Com. vs John Klinger, horse stealing. The defendant's attorney asked that the indictment be quashed as the crime was committed in 1891, and was therefore cut out by statute of limitation a verdict of not guilty rendered.

Com. vs Jacob Test, of Philipsburg maintaining a nuisance in the borough of Philipsburg. C. M. Bower assisted in the prosecution and W. E. Gray conducted the defense. The case was still on trial when court adjourned.

The case of the Commonwealth vs Jacob Test, for maintaining a nuisance in the shape of a bull in the borough of Philipsburg, occupied the attention of the Court most all of Tuesday afternoon. There were a large number of witnesses on both sides called and the jury was still wrestling with the case when court adjourned.

At the completion of the Test case the case of Commonwealth vs Harvey Heaton, f. and b., was disposed of. The defendant was found guilty and sentenced to pay a fine of $100 and the usual additional expense and money for the maintenance of the child.

The next case taken up was that of the Commonwealth vs William Mayhew, adultery; Annie Simpson, prosecutrix, Col. J. L. Spangler and Hugh S. Taylor defended the prisoner.

Before the above case was ended C. M. Bower, Esq., presented the Bar Association's minute and resolutions on the death of Col. D. S. Keller and asked that they be entered on the records of the court. It was so ordered. Judge Furst then gave opportunity to all those who desired to speak of Col. Keller to do so and W. F. Reeder, Ira C. Mitchell, J. C. Meyer and John Blanchard, Esqs., paid glowing tributes to the memory of the deceased. His Honor, Judge Furst also spoke briefly of the life and death of Col. Keller. Court then adjourned until 9 o'clock Wednesday morniug.

The grand jury has acted on the following bills and returned accordingly

Com. vs William H. Jacobs, f. and b., true bill.

Com. vs Wilbur Fetzer., f. and b., true bill.

Com. vs E. D. McElarney, f. and b., true bill.

Com. vs Bruce Warner, f. and b., true bill.

Com. vs Frank Cunningham, assault and battery, true bill.

Com. vs Andrew Weaver, larceny; bill ignored.

Com. vs G. J. Woodring, violating liquor laws. A nol pros entered by request of the prosecutrix.

Com. vs Laura Smith, larceny; bill ignored.

Com. vs Henry Vanderpool, assault and battery. Bill ignored and the county to pay the costs.

Com. vs A. W. Garver and Alice Garver, assault and battery with intent to kill. True bill.

Com. vs Daniel Dawalt, f. and b., true bill.

WEDNESDAY MORNING SESSION

At the convening of court the jury in the Test case returned a verdict of guilty and the court's sentence was $1 fine and costs.

The next case was that of the Commonwealth vs A. W. Garver and wife, assault and battery with intent to kill. W. F. Reeder, Esq, conducted the defense. The parties live at Centre Hall, and Josiah C. Dale, the prosecutor, alleged that Mr. Garver was taking his potatoes and when he went to remonstrate he was assaulted. Mr. Dale lived on Mr. Garver's farm. The jury returned a verdict of not guilty and the prosecutor to pay the costs.

Commonwealth vs Thomas Toner, f. and b., pleads guilty, and given the usual sentence.

Commonwealth vs Oswalt, larceny; Ira C. Mitchell for defense. Defendant plead guilty to having stolen a pair of shoes, and was remanded to jail without sentence.

Commonwealth vs Z. Hoover, assault and battery; J. C. Meyer for defense. Case still on trial when court adjourned.

Louis Lose, convicted of assault and battery, was sentenced to $1 fine and costs prosecution.

THE FIRE LIGHTED.

Valentine's Large Furnace Again In Blast.

What our people have been longing and hoping for for months past is now realized in the lighting on Monday of the fires in the Valentine Iron Company's furnace near here. Quite a good sized crowd was present to witness the act and the torch was applied at just 9.10 o'clock by Miss Lydia Valentine Bond, the three-year-old daughter of Dr. and Mrs. Bond, of Baltimore, and grand-daughter of Mr. Robert Valentine, the secretary and treasurer of the company. Everything went off a booming and it was but a few minutes after the match was applied until the fire was roaring up through the stack and a dense volume of smoke pouring out of the top of the large funnel proclaimed that once again was the hum of industry and activity to be heard in that vicinity.

And now that the entire plant will soon be in full operation again, our people can rejoice that this establishment is running and giving employment to so many men. And among them all there are none who can and will more truely rejoice than just the management themselves. The company is composed of a class of men who are never quite so happy as when busy themselves and at the same time giving employment and the means of earning an honest living to hundreds of others. And now it is to be hoped that the fire lighted that morning may not be allowed to go out, from any cause whatever, for a long time to come and that both our workmen and the company will realize pecuniarily by the action of that time.

The Cost of Electric Lights.

The following shows the cost of electric street lighting in places where 2,000 candle power is furnished:

Lock Haven—Lights burn every night and all night at an annual cost of $75 per light.

Bedford—Twenty-nine lights; burn until midnight, annual cost $60 per light.

Bellefonte—Has twenty arc and fifty-four incandescent lights; each arc costs $105 annually. Total cost of lighting, $3,234.

Huntingdon—Forty lights; some burn until midnight, at cost of $60, and others all night, at a cost of $100 per light.

Johnstown—One hundred and eighty-five lights; burn all night,; annual cost, $100 per light.

Ebensburg—Fifteen lights; burn all night at annual cost of $25 per light.

Tyrone—Fifty-four lights; burn every night and all night at an annual cost of $75 per light.

Philipsburg—Twenty-five lights; burn all night at an annual cost of $100 per light.

Gallitzin—Twelve lights; burn all night at an annual cost of $66.66⅔ per light; said to be 1,300 candle power.

Bellwood—Thirteen lights; burn all night at an annual cost of $66.66⅔ per light.

Lewistown is lighted up by seventy-four lamps of twenty-five candle power each, for which $23 is paid for each lamp per year.

LETTER LIST

The following letters remain in the Bellefonte P. O. uncalled for August, 27th 1894.

John Fletcher, A. Haag, Mrs. R. B. Harris E. B. Jackson, Mr. Percall, A. H. Reed Wm. Sayers, Emerson Smith & Co., Miss Ella Stover 3.

When called for please say advertised.

DAVID F. FORTNEY P. M.

—The coal traffic is heavy on the mountain, and the like was never known for coal and coke shipment over the Bald Eagle valley road. Last week the freight traffic on the valley was within one train of the heaviest week's traffic in the history of that road. It was a long rest—four months or more but inactivity is now lost to view, and we hope not to return again for a long time.

—"Vicksburg," James Pain & Sons' latest Manhattan Beach pyrotechnic success will have its first appearance in Pittsburg on Saturday evening, September 1st; continuing September 3, 6, 8, 10, 12, 13 14 and 15.

HERE'S AN OPPORTUNITY.

For Bellefonte's Board of Trade to Do Something Big.

From Saturday's Lock Haven *Democrat* we clip the following item of importance:

"Yesterday T. H. Harmon received a letter from a firm seeking information as on what terms they could secure 100 acres of land. The firm says it wants to start a large steel plant to manufacture a patent railroad spike and rail. The company has a capital of $600,000 to start with and has the same amount for a reserve fund. They desire information about iron and coal, as they make their own steel.

"Mr. Harmon will write all the particulars he can give on the points desired."

Now, here is an opportunity for the Bellefonte Board of Trade to do some work that might amount to something for our town and make the Board everlastingly famous. It is a well-known fact that not another place in the State of Pennsylvania could now offer better advantages for the location of a plant as above described than just Bellefonte. We have most of the natural product that enters into the manufacture of steel right here and coal almost at our doors, and we see no reason why with proper inducements the above firm should not be prevailed upon to locate here.

Now next Tuesday, September 4th, is the regular meeting night for the Board of Trade. Let the manufacturers committee, or any other member who is interested in seeing business brought here, go to work at once; find out the address of this firm and write to them. Let the work be done so that the result of the correspondence can be placed before the Board next week to be considered and acted upon. If the Board of Trade is desirous of doing good for Bellefonte they must work and take time by the forelock. It won't avail anything to sit calmly at ease and let every opportunity pass us by without even a show to investigation.

Take counsel from Phillipsburg's Board of Trade. Though it was not organized until six months after Bellefonte's board, yet it has already been the means of locating one or two small manufacturing industries and has a couple more "on the string." That's business, and the kind of business the Bellefonte Board should do.

May He Rest In Peace.

We are indebted to our Romola correspondent for the following:

Mr. Herman Eugene Wetzel, born October 4, 1879, died August 24th, 1894, aged 24 years, 10 months and 19 days. But we will not measure his life by the number of years that will be chiseled on his tombstone, but we will measure it by his devotion to duty and to Christ. He will live on in thought and deed and affection. Memory will keep his name green and fresh. He was an eminent christian. That body so tired and so wasted was no longer a fit dwelling place for his bright spirit, and therefore the Master allowed a dissolution to take place. His life was rounded in the service of the Lord. He was ready to be garnered. The reaper saw the sheaf was ripe and he harvested it. His funeral occurred at the Reformed church, of Romola, of which the deceased was a member. The obsequies were conducted by Rev. Lewis Robb, formerly of this place, but now of Altoona. And now—

"Sad, silent and dark be the tear that we shed,
As the night dew that falls on the grass o'er his head;
But the night dew that falls, though in silence it weeps,
Will brighten with verdure the grave where he sleeps.
And the tear that we shed, though in silence it rolls,
Will long keep his memory green in our souls.

E. C. D.

Bands in the Contest.

Following is the list of bands which will enter the contest at the band tournament at Hecla Park Thursday:

Coleville band; State College; Milesburg; Military band, of Lock Haven; Good Templars band of Lock Haven; Greenburr band; Booneville; Milheim; Aaronsburg, and Zion.

A large number of other bands will be present that are not in the contest. There will be a special train returning on the Bellefonte Central railroad to State College in the evening. A large number of people are coming from Tyrone. If you want to have a good time, and hear some fine music, be sure and go to Hecla tomorrow.

Killed at Mill Hall.

Saturday afternoon about 2 o'clock the work train on the Beech Creek road was going through Mill Mall. Fearing that the train had parted Fireman Kirk leaned out in the passageway between the cab and tender to see whether such was the case. The locomotive reached the bridge above Mill Hall just then and the fireman was struck on the head, knocked off, and fell to the ground. His head was badly smashed and his arm was broken. He was killed instantly. His body was carried to the caboose and taken to his home in Clearfield.

Oil and Gas Business.

The Salt Lick gas and oil company held a meeting Monday evening in the office of the electric light company, Lock Haven. The action of the president and secretary in awarding the contract for drilling the well was approved. It was also decided to levy an assessment of fifty per cent. on the capital stock. It was determined to limit the capital stock to $1,200 at five dollars a share. Eleven hundred dollars of the stock has already been taken. Moore Fredericks resigned as secretary and treasurer and was elected a director. George R. McCrea was elected secretary and treasurer.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Personal Pencillings.

Miss Rebecca Rhoades is visiting friends in the Quaker City.

Miss Mame Dolan, of this place, is visiting friends in Renova.

Mrs. Charles Heverly is lying very ill at her home on Pine street.

Mr. Oberdorf, a prominent merchant of Baltimore, is visiting Samuel Lewin.

Miss Ella Kauffman, of Altoona is visiting Miss Lizzie Hamilton of this place.

Miss Sallie Trafford, of Williamsport, is the guest of Miss Carrie Gross, in this place.

Mr. Hammond Sechler is entertaining his sister, Miss Sechler, from Williamsport.

Mrs. Dingler, of Jersey Shore, is visiting her sister, Mrs. Altendoffer, on Penn street.

Miss Lizzie Gross departed on Wednesday evening for a visit with friends in Altoona.

Mr. Eustace Grimes, of Harrisburg, circulated among his Bellefonte friends on Monday.

Register and Recorder A. S. Grow, of Lock Haven, transacted business in Bellefonte on Saturday.

Miss Anna Waite, of Aaronsburg, is a guest at the home of her aunt, Mrs. C. M. Bower, on East Linn street.

After a three months' visit with friends in Danville Miss Tessie Lyon is again at her father's home in this place.

George R. Meek has returned from his two weeks' vacation and is now again to be found at his desk in the *Watchman* office.

Mr. W. A. Goodwin, the organist in the Episcopal church, after a delightful visit at his home in Philadelphia, has returned to Bellefonte.

After a fortnight's delightful visit at his home in this place, Mr. Joe Harris departed on Saturday for his new home in Fort Wayne.

Mr. Thad McClain and Mr. William Hall, two young men of Ridgway, are visiting at the home of Mr. James McClain, on East Curtin street.

After a very pleasant three weeks' visit with friends in Bellefonte, Miss Lettie Landis departed on Thursday for her home in Berwyn, near Philadelphia.

Mr. Hassel and daughter, Miss Jennie Hassel, of Philadelphia, are guests at the home of Mr, H's daughter, Mrs. C. F. Montgomery, on East Linn street.

General Secretary F. H. Cota has returned from his summer vacation and is now to be found at his headquarters at the Y. M. C. A. building on Allegheny street.

Mr. W. B. Maitland, Mr. Hard P. Harris and sister, Mrs. W. H. Galway, of this place, and Rev. George Warren, of Milesburg, were visitors in Tyrone on Thursday.

Herbert Loeb, son of Mr. Adolph Loeb, formerly of this place, arrived in town on Saturday for a brief visit with his old friends. Herbert is now located in Punxsutawney.

Mr. Walter S. Sutherland, of the Purchasing Department of the Pennsylvania Railroad, Philadelphia, is spending a few days with Ira C. Mitchell, Esq., and family, on Spring street.

A party consisting of Misses. Carrie and Lizzie Lingle, Bertha Shoemaker and Mr. Tom Gilmore drove to Bellefonte from Philipsburg and returned Thursday evening much delighted with the trip.

Mr. and Mrs. John Ardell enjoyed a delightful drive on Friday, Mr. Ardell going to Beaver Mills, while Mrs. Ardell accompanied him as far as Julian, spending the day at the home of Mr. T. A. Ardell.

W. W. Bayard, who has been rusticating in Pensvalley during the hot summer months, has gone to Pittsburg to accept a situation in a large drug store. Mrs. Bayard will join her husband in the smoky city later in the season.

Mr. and Mrs. M. W. Cowdrick, at their home on East Linn street, are entertaining Mr. and Mrs. George Calvert, a bride and groom of New York city. Mr. Calvert is a nephew of Mrs. Cowdrick and is one of New York's most prominent young brokers.

Misses Emma and Mary Green, of Bellefonte, have been the guests of Mrs. Clevan Dinges for a fortnight. Miss Emma leaves to-day for Cape May, where she will recuperate, inhaling the sea breeze. Miss Mary will remain as the guest of Mrs for a few weeks.—Wednesday's Williamsport *Journal*.

We are sorry to record the fact that Mr. William Jones has been somewhat indisposed the past few days.

Mr. E. C. Humes attended a meeting of the stockholders of Hoover, Humes & Co., in Tyrone on Monday.

We are glad to state that the health of our eminent townsman, the venerable ex-governor Curtin, is considerably improved; his condition now being such that he is able to sit up in his room. It is feared, however, that he will not be sufficiently recovered to attend the G. A. R. National Encampment in Pittsburg next week.

HOW MAC. FUREY WAS KILLED.

Full Particulars of Saturday's Distressing Accident.

Saturday's Lock Haven *Express* says: Max Furey, a son of Joe W. Furey, late editor of the Democrat, was struck by a train at Henderson street to-day about noon and instantly killed. Max was employed in the composing room of the Daily Democrat and one of his duties was to meet News Express train and receive the plate dispatches for the afternoon edition of the paper. To-day, as he had often done before, he took a seat in the Irvin House omnibus to ride up town. Mr. Robert Nagle, the railroad company's watchman at the Henderson street crossing, saw the accident occur and gave the following statement to a representative of the EXPRESS:

Mr. Nagle said that after the passengers had left News Express train, which stops here, pulled up the middle tracks to go on the "Y." A freight train was coming eastward on the main tracks and before it reached Henderson street all the cabs and omnibuses had crossed excepting the Irvin House "bus." The driver waited a few moments and then turned his horses out Henderson street towards Walnut street. When the "bus" reached the crossing of the "Y" tracks News Express train was backing upon the "Y" and a collision between the cars and the vehicle seemed inevitable. In the omnibus were the Irvin House porter, Max Furey and another man whose name was not learned.

The passengers seeing their peril all jumped from the "bus," Max being the last one out. The "bus" by this time had crossed the tracks and was out of danger. Max when he jumped fell upon the tracks in front of the car, was caught under the wheels and instantly killed. His body was dragged about sixty feet and frightfully mangled.

Had all the men remained in the "bus" none would have been hurt. The other two men escaped without injury.

The remains of the unfortunate young man were removed to Sloan's undertaking rooms where an inquest was held and the body prepared for burial.

Max Furey was the second son of Joe W. Furey. He was aged about 19 years and was a bright intelligent young man. His death will be a sad blow to his parents and his brother and sisters. The heartfelt sympathy of the community will be with them in their sad bereavement.

HEARD TESTIMONY.

What Witnesses Say About the Killing of Max Furey.

The coroner's jury Saturday evening heard the testimony of several witnesses who saw the accident that killed Max Furey. The testimony, with the exception of a few details, brought out the facts as related in these columns Monday evening.

Among the witnesses was James Becker, driver of the Irvin house bus. He stated that when he turned his horses around he intended crossing the switch to go up the alley towards Pine street. He stated that he was looking back at the moving freight train on the main track and consequently did not see the approaching passenger train on the switch, until his horses were on the track. The train he thinks was then about twenty feet from the bus. He immediately hurried up his horses and the bus crossed the track and escaped being struck. He claims that he did not know that Max was in the bus, and while he controls the rear door with a stap, he did not know for what purpose it was suddenly burst open until he arrived at Pine street, when some one asked who the man was that had been killed. He then drove down Clinton street to Henderson, where the physician, who is now known to be Dr. Dum, of Mackeyville, and the porter reentered the bus.

When asked the question if he did not know that News express backed down that track every day about that time, Becker replied that he did. He, however, stated that he was entirely deaf in his right ear, and could not hear the ringing of the bell on the engine.

Brakeman Thomas Walls stated that he was on the rear platform of the passenger train, and when he saw that the bus was likely to be struck he yelled loudly and quickly ran inside and turned on the air brake.—*L. H. Democrat.*
